

Fate of Conference Rests With Russia Says Lloyd George

British Premier Says Nature of Soviet Reply to Allied Note Will Decide Future.

EMPHATICALLY DENIES BREAK WITH FRANCE

To Offset Disaster of Unfavorable Russ Reply, Welshman Sets to Work on New Plan.

BY RALPH H. TURNER.

Genoa, May 8.—Lloyd George has stepped into the breach in one last effort to pull the collapsing Genoa conference together while Russia and France, both expecting it to fail, are trying in advance to shift the blame each on the other.

Russia frankly wants to see the conference fail as she believes she could drive better bargains individually with the allies. France objects to the terms the allies are proposing and is openly predicting the failure of the conference. But each nation is busy trying to convince the world that if the conference collapses it will be the other nations that are responsible.

Even Lloyd George, whose optimism exceeds that of anyone else here, now admits that the Russian reply to the allied memorandum, if unfavorable, might upset the whole Genoa scheme. But he is advising caution at this time—"one of the most critical moments of the conference."

Reply Possible Today.

The Russian reply will not be ready before Tuesday, Leonid Krassin, foreign trade commissar, told the United News.

Lloyd George also indicated he expected the answer in twenty-four hours.

"The fate of the whole conference, including the non-aggression pact, depends on the character of the Russian reply," Lloyd George told American and British correspondents.

"It would be a pure guess to estimate the value of the conference pending the reply from the Russians which we expect tomorrow."

The outcome of the negotiations, he continued, depended on whether the Russian reply is bona fide or evasive. If it is bona fide, there will be a type of settlement of the French demand that the Russians answer yes or no, he predicted.

Direct Loan Possible.

"There are many ways of saying yes or no," the British premier said. "A direct governmental loan to Russia is impossible, he asserted, discussing the demands of the soviets for three billion gold rubles to help them set on their feet."

Questioned as to the French view that he had abandoned the proposed meeting of signatories to the Versailles treaty, Lloyd George replied, "I never abandon anything."

He characterized as an absolute invention The London Times' dispatch to the effect that he had told Barthou that the entente between France and England was over.

Has Altered Plan.

But to offset the disastrous results of an unfavorable Russian answer, Lloyd George has already started on another track and has the German delegates working privately on the Russians trying to induce the soviets to accept the Italian consortium plan.

Lloyd George, talking with Anglo-American newspaper correspondents, said he had conferred with Tschitcherine recently and learned that they wanted an explanation of some points in the memorandum which the Russians thought were obscure.

Lloyd George failed to express to the correspondents any hope that the reply would be satisfactory. But neither would he go so far as to believe as some of the French do, that the conference will break up at once if the reply is not a clear-cut acceptance.

His declaration that a governmental loan to Russia is impossible will not help the situation much as this is one of the points on which the soviets have been extremely insistent.

Private Property Clause.

Referring to the private property clause of the memorandum, which the French and Belgians refused to approve, Lloyd George denied that it was "a wicked British project" as has been charged, and insisted that it was framed by British, French and Belgian jurists jointly, and was a compromise which the French accepted as offering adequate protection to private property, furthermore, he added, the Cannes resolutions recognized the right of a nation to its own conception of private property provided it was either compensated for or restored.

The Japanese, in a note to Tschitcherine, protest against the soviets' delegate's note to Premier Poincaré, president of the conference referring to Japan's "oppression" in eastern Siberia. The Japanese, the protest declares, went into Siberia to assist the returning Czechoslovakian soldiers and remained because Siberian conditions were so bad.

U. S. ENGINEERS NAME MONTREAL FOR SPRING MEET

Regular Annual Fall Gathering Will Be Held as Usual on December 1 in New York.

WANT UNIFORM LAWS TO GOVERN ENGINEERS

New Constitution Is Read. U. S. Will Be Asked to Consolidate Its Engineering Work.

The first day's session of the spring meeting of the American Society of Mechanical Engineers, which was attended by representatives from every state in the union, was held Monday at the Hotel Piedmont and after a lengthy discussion Montreal was selected for the spring meeting place of the association. The date has not yet been set.

An effort will be made by the engineers of the country to have all engineering departments of the United States government put under the head of the department of works instead of having engineering departments in the various divisions of the government as is now the case, it was decided Monday afternoon.

An effort also will be made to have a national law enacted making the requirements of the states for an engineer to receive a license more uniform. In order that persons securing a license in one state may be able to practice his profession in any other state.

Read New Constitution.

A new constitution for the association was read for the first time at the afternoon session and was discussed at length by the engineers. The purpose of the new constitution is to simplify certain paragraphs embodied in the by-laws and is expected to be adopted without any dissenting votes when it comes up for the second reading and final action at the annual fall meeting of the association to be held in New York city on December 1.

The new constitution reduces the number of vice presidents from six to three and in place of nine managers fourteen councilors are substituted.

A meeting of the society council was held Monday morning when reports of the finance, meetings and publication committees were read, though no action taken on the reports. The members of the council will meet again Tuesday morning at 9 o'clock when reports are expected to be recommended for adoption.

Nominating Committee.

The nominating committee was in session for several hours during which time suggestions were made as to the

Continued on page 2, column 5.

Open Air Rallies Called for Week In Center of City

Supporters of Watkins Charter Will Meet at Flatiron Building.

From headquarters of the Watkins charter campaign committee came the announcement Monday that an open-air meeting will be held every night, beginning Wednesday night, at the point of the Flatiron building, through May 15.

Leading speakers representing the Atlanta plan forces will address the crowds, and the meetings are expected to prove a drawing feature of the campaign.

Wednesday night at 7:30 o'clock, the speakers will be Edgar Neely, C. W. McClure, F. O. Bentley and Henry Quillian. Thursday night Councilman Edgar Watkins, W. C. Caraway, Councilman Horace Russell and Paul Bryan. Saturday night the speakers will be Luther Still, Edgar Neely, Rev. C. B. Wilmer, Henry Quillian and F. O. Bentley. The final rally will be Monday night preceding the election Tuesday and addresses will be delivered by W. C. Caraway, Julian Boehm, Edgar Watkins, Horace Russell and J. E. Cumbe.

Two Watkins rallies will be held Tuesday night. At an open-air meeting at Marietta street and Ponders avenue in the Fifth ward, the voters will hear W. C. Caraway, J. E. Cumbe and Mrs. J. H. Gibbs.

In the Eleventh ward at Wall's Grove, Luther Still and Miss Eleanor Russell will speak.

Governor's Pardons For Jailed Mothers Spurned by Sheriff

Chicago, May 8.—State pardons of six mothers and their babies were spurned Monday night by Sheriff Charles Peters.

The women, who were sentenced three years ago to short terms on contempt of court charges growing out of picketing during the strike of employees of the American Cigar company employees, were forced to spend their third night in jail with their babies.

Sheriff Peters refused to honor the pardons of Governor Len Small on advice of John J. Healy, attorney for Cook county. "The governor has no right to pardon in contempt of court cases," said Healy.

Healy, however, stated he would look up legal authorities and give his final opinion Tuesday.

Release of the prisoners was halted just as Deputy Sheriff Laubheimer was about to escort the mothers and children through the prison gates.

WATKINS CHARTER LEADS OPPOSITION IN STRAW BALLOT

Strength of Three Charter Plans Tested by Vote at Meeting of Tenth Ward Citizens.

THREE BIG MEETINGS HELD MONDAY NIGHT

Numerous Rallies Will Be Held During Week. Mayor Key Will Speak in Kirkwood Tonight.

Testing comparative strength of the three charter plans by secret straw ballot at a mass meeting of tenth ward citizens Monday night at Capitol View Presbyterian church, the Watkins charter received as many votes as the old charter and Choate plan combined.

Of 42 votes cast, the Watkins charter received 21, the present charter 14, and the Choate plan 7.

A three-cornered joint debate preceded the poll. The meeting was one of the biggest and most enthusiastic since the campaign opened. At the end of the debates' speeches of 20 minutes each, 110 people were present. The speakers were then allowed 10 minutes each for rebuttal and many did not remain to participate in the ballot. Several who stayed did not vote.

Two other spirited charter meetings were held Monday night. At city hall the stand-patters had their largest crowd of the campaign. Dr. Grace Kirkland, James M. Hollowell, Thomas S. Skipper and others spoke.

Open-Air Meeting.

In the sixth an open-air Watkins rally was held at Euclid and Moreland avenues. Speeches were made by C. W. McClure, J. L. McCord, Mrs. J. H. Gibbs and Councilman Horace Russell.

Crossing swords in the tenth ward were Edgar Neely for the Atlanta plan; Colonel E. E. Pomeroy in behalf of the composite or Choate charter, and Councilman J. R. Nutting in defense of the present charter, with its proposed amendments.

The speakers were warned that mud-slinging would be forbidden. Mr. Neely was given the floor first. He argued that the city-manager plan is a simple matter of undertaking to conduct the city as a business.

"If we could get the same system in our government that we have in our banks, our grocery stores and other similar establishments, we would see."

MAY DELAY BONUS TO NEXT SESSION

Watching Political Barometer, G. O. P. Scouts Report Delay Would Win More for Party.

Washington, May 8.—Some of the most powerful influences in the republican party are at work now to effect a postponement of any bonus legislation at this session of congress. Party lieutenants, occupying strategic listening posts out through the country, have been asked the question:

"What would be the political effect of deferring action on the bonus compensation until the next congress?"

Report of Scouts.

And from some of the most influential of these lieutenants has come back word that the party might lose some solid votes but not so many as has been repeatedly stated—and

\$43,000 PLEDGED, ASSURING SUCCESS OF BIG PROJECT

Plans Are Made for Bringing 100,000 People to Atlanta During "Prosperity Week."

PRESIDENT OF CUBA TO BE INVITED HERE

Big Parade, With Mardi Gras Floats, and Great Western Rodeo Will Be Features of Event.

Plans for bringing 100,000 visitors to Atlanta from all parts of Georgia and adjoining states during the week of May 29-June 3, inclusive, during which time "Progress and Prosperity week" will be celebrated, were discussed at a meeting of two hundred representative citizens from every civic organization in the city held at the chamber of commerce Monday night.

More than 60,000 tickets at 50 cents each were underwritten by the various clubs whose members agreed to sell that number. The sum realized from the sale of these tickets with the \$13,000 which has been pledged by backers of the movement to celebrate "Progress and Prosperity week," assures the celebration of success.

The celebration, which will be held at Lakewood park, will include the cleanest and best entertaining features that can be secured. The 20 big floats used in the Mardi Gras celebration at New Orleans have been secured, and a great parade participated in by many thousands of people will be staged from the city to Lakewood park, with the king and queen of the celebration who will be named later, riding in the first float.

Great Rodeo Coming.

Every form of entertainment imaginable will be furnished the pleasure seekers. The Rodeo, a wild west show from Arizona, one of the most unique attractions ever seen, will give exhibitions at the park afternoon and evening. This show will be brought from Arizona at a great expense.

It is also planned to have Dr. Alfredo Zayas, president of Cuba, to visit Atlanta during the week. Frank Reynolds, well-known hotel man and personal friend of the Cuban president, made the suggestion that he be invited, and the meeting unanimously adopted his recommendation. The invitation will be extended through the local Cuban consular office. Dr. Zayas visited Atlanta in 1906 when he was vice president. Upon his return to Cuba he was elected president over Gomez, the incumbent.

Sale of Tickets.

The sale of the tickets was conducted by W. R. C. (Dick) Smith, who made a big success of the undertaking.

Previous to the opening of the sale, Mr. Smith told of coming to Atlanta 17 years ago, being drawn here as the result of a visit made in 1895.

"It was that wonderful Atlanta."

Hundreds to Pay Last Tribute To Judge Evans

Funeral Will Be Held in Sandersville This Afternoon.

Savannah, Ga., May 8.—(Special.) The funeral of Judge Beverly D. Evans, federal judge of the southern district of Georgia, who died suddenly at his home here last night, will be conducted tomorrow afternoon at his old home in Sandersville. The body left Savannah tonight in a special pullman of the Central of Georgia Macon train, to arrive in Sandersville early in the morning.

Judge Evans expected his death, it was learned today. He had suffered two attacks of paralysis some time ago and had only ten days ago told his family to be ready at any time to know of his death, which he was certain would be sudden. His father and a brother both died suddenly. Judge Evans was only a few days ago made president of the Georgia Historical society, succeeding Judge Andrew Cobb, of Athens.

Special services were held at the home here this evening at 7:30 o'clock by Dr. D. W. Key, acting pastor of the First Baptist church. The active pallbearers were young men from Judge Evans' baraca class, who heard his last public talk yesterday morning in the First Baptist Sunday school.

Honorary Pallbearers.

The honorary pallbearers are Judge P. W. Meldrum, Judge S. B. Adams, Judge G. T. Cann, George W. Owens, Frank M. Oliver, Colonel A. E. Lawton, J. E. Wood, F. A. Stovall and Judge Davis Freeman.

The bar association held a meeting this morning and took action in paying tribute to the dead jurist and who has been repeatedly stated—and

While He Preaches On Prodigal, Wants Fatted Calf Guarded

Philadelphia, May 8.—While the Rev. James Isenberg was exhorting his flock to "Make the Jericho Road Secure," thieves were looting his home of jewels and other valuables. They made their escape through the rear door as the pastor walked in the front door on his return from church.

Rev. Isenberg is planning to preach on "The Return of the Prodigals" next week, but will have a policeman guard the fatted calf.

CROWDS THROUG HOME EXPOSITION ON OPENING NIGHT

All Materials Needed in Construction of Dwellings Are Gathered Under One Roof.

FINE ENTERTAINMENT PROGRAM IS OFFERED

R. W. Evans, Chairman of Show, Enthusiastic Over Response Made by People of Atlanta.

More than 8,000 persons, including men, women and children, thronged the auditorium Monday at the initial opening of the "Own Your Home" exposition, fostered by the Atlanta Real Estate board. An hour before the doors were opened a line that reached from in front of the building to Gilmer street was in waiting and the doors were opened a half-hour earlier than the announced hour of opening at 8 o'clock.

G. Ward Wright, president of the real estate board, and R. W. Evans, chairman of the "Own Your Home" committee, expressed gratification at the first night's results. The exposition will continue through Saturday from 10 o'clock in the morning until 10 in the evening. Admission is free and the public is cordially invited.

Governor Thomas W. Hardwick officially opened the exposition with a brief address, in which he congratulated the real estate board on its undertaking and expressed the hope that Atlanta would make it an annual affair. The exposition and what it stands for, asserted the governor, is one of the things that make Atlanta one of the foremost cities in the country. It is the best guarantee a city has to be composed of a populace who own their own homes and nothing is of more importance, he declared.

Mayor Key Speaks.

Mayor Key, the next speaker, stated that during the last year Atlanta had awakened to the advantages of the "own your home" movement and pointed out as an example the building permit record which he said had more than doubled the preceding year.

"When I took home the deed to my first little home months after I was married," declared the mayor, "it was one of the happiest moments of my life. My wife and I had struggled a long time in the purchase of our first home on the installment plan and when we finally were rewarded for our efforts by having the deed delivered to us, it was indeed a happy moment."

"I rejoice with our people that this movement has been started here and that it will be a permanent affair every year."

Eugene R. Black, well-known Atlanta banker, spoke next.

COUNTY WILL VOTE ON \$500,000 BONDS

3,600 People Are Eligible to Vote in Election Today, Called to Improve Schools.

An urgent request for all citizens living in the country districts of Fulton county to go to the polls today and vote for the proposed \$500,000 bond issue for school improvement was made Monday afternoon by W. J. Simmons, superintendent of the Fulton county school system.

"There are 3,600 persons qualified to vote in this bond election," said Professor Simmons, "and it takes a majority of the registered voters to carry this election, those who are in favor of it can not afford to stay at home. Every voter who stays at home casts a vote against the bonds."

"It is imperative that we pass this issue, as it will be impossible for us to continue to operate or to ever merge with the city system unless the bonds pass."

"The polls will open at 8 a. m. and will close at 3 p. m. and it is the duty of every man and woman to lay aside

NEW CONFERENCE FORMED MONDAY BY METHODISTS

General Conference Orders Formation of New Annual Conference in State of Arizona.

CENTENARY REPORT TO BE MADE TODAY

Many Petitions and Resolutions Are Presented for Consideration of Delegates at Hot Springs.

Hot Springs, Ark., May 8.—(Special.) The formation of the Arizona annual conference was ordered at today's session of the general conference of the Methodist Episcopal church, south. Dr. J. E. Harrison, of Phoenix, presented the following facts:

Methodism in Arizona has doubled in membership and in property owned and acquired the past quadrennium. The new conference created will embrace all the state of Arizona and territory will be equal to the state of Maryland, Virginia, West Virginia and Tennessee. Arizona had the largest percentage of gain in population during the last decade of any state of the union.

J. M. Rogers, of Savannah, presented Mr. and Mrs. Heisburo Nakamura, of Kobe, Japan today. Mr. Nakamura is the director of the forward movement of Japan Methodism. An offer was received today from the directors of the American Alcohol Educational association tendering to the members of this body individual copies of the booklet, "Alcohol and the Human Body," by Richmond Pearson Hobson.

Therrell Called Home.

Dr. J. H. Therrell, of Ocala, Fla., was called home by wire this morning. Dr. Therrell was for several years the efficient field secretary of the South Georgia conference, with headquarters in Albany.

On motion of Dr. J. H. Eakes, of Atlanta, the hearing of the report of the centenary commission will be the special order of the day from 11 to 12 o'clock tomorrow.

The report of the war work commission was read by Dr. Plato Durham, of Atlanta. The report recommended that there be no undue reduction in the number of chaplains in the army, as may be provided for in any military legislation by congress, and that strict observance of rule as to rank of chaplains may be observed in such legislation.

Course in Efficiency.

A course in church efficiency, etc., for Methodist stewards, was ordered. Rev. W. H. Clark and J. T. Duncan, of Douglasville, are attending the sessions of the conference. Mr. Duncan has attended each session of the general conference since 1906.

Dr. James R. Joy and Dr. David A. Downey, of New York, editor of the Christian Advocate and the book editor, respectively, were presented to the body.

A goodly number of petitions, memorials and resolutions were presented at today's session, some of which were referred to the committees and others went to the calendar.

The question of combining the church and the quarterly conference into the latter conference provoked quite a discussion. Rev. W. W. Scott, of North Alabama, in speaking against the issue declared we are hearing so much of progress and forging ahead, until we are reminded

(Continued on page 2, column 4.)

Dawes' Economy Claim Is "Bunk" Say Democrats

Alleged Government Savings Are Deceptive and of "Paper Variety," Charge.

Washington, May 8.—Sharp democratic attacks were made in the house today on the report by Director Dawes, of the budget bureau, transmitted to the appropriations committee by President Harding setting forth reductions in government expenditures.

Representative Byrnes, Tennessee, ranking democrat of the committee, who had asked for specific information in a resolution, charged that careful analysis of the report showed that the figures were "plainly deceptive," and that they had been "manipulated in an effort to mislead the public into the belief that some economy has been effected by the administration."

Joining in the attack, Representative Byrnes, democrat, South Carolina, also a member of the appropriations committee, declared that if the president had had opportunity to examine "the itemized statement of alleged savings constituting the total of \$180,000,000," he would discover that it is pure bunk.

Charges Quibbling.

Defending the report, Representative Mondell, Wyoming, the republican leader, asserted that Mr. Byrnes (Tennessee) was "quibbling" as to de-

Flexible Tariff Idea Is Unconstitutional Democrats Contend

FRANCE SEEKING CLOSER U. S. BOND IN RUSS AFFAIRS

Closer Co-operation With America Is Sought by Poincaré in Dealing With European Problems.

SAY U. S. WAS WISE IN DODGING GENOA

France Announces She Will Not Recognize Soviet Russ Except in Agreement With U. S.

Paris, May 8.—Premier Poincaré is seeking closer co-operation with the United States in dealing with European problems, especially that involving soviet Russia.

This became apparent when it was authoritatively announced that France would not recognize the soviet government except after agreement with the United States.

French high officials are evincing greater respect for America's foreign policy, especially since the Genoa difficulties.

Whether they are looking ahead to a possible rupture with Great Britain, in which case the United States would be the only great power they could turn to, is not known. But high officials have left no doubt that they will endeavor to act in harmony with America's views whenever possible.

Failure Inevitable.

France, it is learned, concedes that the breaking up of the conference is inevitable, convinced that the soviet reply will be either negative or inconclusive. Every time the allies have proposed anything concrete, officials say, the soviets have sidestepped or countered with demands for loans and advances of credits.

France considers that the Genoa conference has changed nothing with regard to the allies' relations with Russia. In fact, the highest officials admit that America proved right in refusing to participate.

"It isn't the first time we've learned a good lesson from the policy of the United States," a high official laughingly told the press Monday.

Watching Example.

"We hope to learn others. Hereafter we will have a good understanding with the United States before arranging anything with the soviets."

This indicates that the Poincaré government is seeking a closer and more intelligent co-operation with America than its predecessors desired and are trying to draw what benefit they can from the example of America's method of dealing with Europe's problems.

Meanwhile, officials point out that it is unnecessary to have formal treaties to enable individuals to trade with Russia so long as the soviets are in power. France, it was said, rather prefers to deal in this way.

MYSTERY SHROUDS SHOOTING AFFAIR

Young Woman Says She Was Accidentally Shot, But Police Seek Man in Case.

Miss Beulah O. Helton, 25 and pretty, probably was fatally wounded late Monday night when shot through the abdomen with a .32 calibre pistol. She was rushed to the Grady hospital, where doctors expressed the belief that she only had a slight chance of recovery.

The young woman, who occupies apartment No. 30, of the Barr Court, at 50 West Baker street, with Mrs. Gladys Lucile Reeves, was found in an unconscious condition by Mrs. Reeves when she returned from town about 12:45 o'clock Tuesday morning after visiting a picture show.

Miss Helton told physicians at the Grady hospital, they say, that she was accidentally shot when the pistol fell from the medicine case in the bathroom.

Mrs. M. E. Morris, a trained nurse who has the adjoining apartment to that occupied by Miss Helton and Mrs. Reeves, told

TWO VACANCIES LIKELY ON ROME CITY COMMISSION

Rome, Ga., May 8.—(Special.)—The death of City Commissioner Hugh Burns, and the probable resignation of Commissioner Ike May will make two vacancies in the commission which it will be necessary to fill at a special election to be called at an early date.

MAY DELAY BONUS TO NEXT SESSION

Continued from first page.

certainly it would more than make up for this loss in retaining the confidence of big business which otherwise would be shaken.

As stated several weeks ago by the United News, Chairman John Adams, when he went to New York recently to

see about reducing the national committee deficit, found the republican financial leaders of New York and New England vehement in their denunciation of any bonus legislation.

Harding Attitude.
It is believed here that President Harding will continue to insist that the senate, if it passes a bonus measure, provide revenue for paying the bill. His attitude may mean one more drive for a sales tax, which is supported by many of the big business interests. In fact, so anxious are some of these financial leaders to have a sales tax that they would not oppose a bonus bill financed by such a tax, feeling that the cost of the bonus would more than be repaid by the benefits of the sales tax.

If the senate follows the course of the house and ignores the wishes and suggestions of Harding by passing a bonus bill minus adequate and practicable provisions for financing it, Harding will be subjected to the most tremendous pressure he has yet experienced to veto the bill. It is the confident belief of many of his most

intimate advisors, including both pro and anti-bonus republicans, that Harding will veto any bill not providing revenue, as he has repeatedly indicated.

U. S. ENGINEERS NAME MONTREAL

Continued from first page.

officers who would be placed in nomination by the committee. The nominations of the committee for the various offices of the association will be submitted to the secretary on June 7, who will notify every member of the organization. Votes on the nomination or rejection of the nominations will be made to the secretary through the mail. The balloting will end on September 26 and the result of the voting will be made known on December 1 in New York.

Four simultaneous discussions will open the professional sessions Tuesday. "Textile Machinery" will be the subject that will be discussed at the chamber of commerce, while "Material Handling" will be subject of talk on the roof garden of the Cecil hotel. "Power Test Codes" is the subject that

the engineers will discuss in room 123 of the Piedmont hotel. Dr. John Stumpf, noted engineer and scientist from Germany, will deliver a speech at the Piedmont hotel convention hall at 9:30 o'clock on "Using Exhaust Energy in Reciprocating Engines." Dr. Stumpf is one of the best known engineers in the world on account of his great accomplishments made in Germany previous to the world war. It is expected that several thousands will hear him lecture.

Local Excursions.
Local excursions to nearby points of interest will occupy the visiting delegates Tuesday afternoon which will be followed by a dinner-dance on the roof garden of the Ansley hotel. The regular convention will close Thursday afternoon but trips to Greenville, Birmingham and Muscle Shoals have been arranged for the visiting delegates who come from all parts of the nation.

Flake Kimball, president of the American Society of Mechanical Engineers, presided at the meetings Monday and will continue to do so during the remainder of the convention.

ECONOMY CLAIM IS CALLED "BUNK"

Continued from first page.

tails of savings effected, and that "some of the economies had resulted quite as much from the vigilance of the budget bureau directors." Chairman Madden, of the appropriations committee, said "somebody had raised the question of veracity, and that while Mr. Byrnes had mentioned deficiency estimates for this year of \$447,000,000, it was a fact that only \$12,000,000 of this total could be attributed to the Harding administration, the balance being a hangover."

Such a multitude of figures were hurled at members that few seemed able to grasp them offhand. Mr. Byrnes enlivened the proceedings, however, by informing the house that Director Dawes had claimed a saving of \$25,000 on the salaries of congressmen, and then asked if they could say where.

In the same fashion, Mr. Byrnes continued, Director Dawes claimed to have saved \$19,000 "in building a canal from the Atlantic to the Pacific," and \$100,000, authorized some years ago and which cannot now be used, for enlarging the capitol grounds.

Characterizing "alleged savings as budget bunk," Mr. Byrnes said it was regrettable that the president should be misled by claims of savings "of the paper variety," and that if he believed in the budget bureau "he should, in justice to the taxpayers, urge congress to declare a dividend."

Claims Deceptive.
"A casual analysis shows that the claim made by the director of the bureau of the budget, acting for the president, of savings made by the administration in expenditures for the ordinary routine of the government and the figures submitted by him in support thereof are plainly deceptive," said Mr. Byrnes (Tennessee).

"In January the president announced to the country that through economies effected by the administration, there had been a saving, for the first six months of the fiscal year, of \$138,000,000. His statement was couched in the most general and ambiguous terms, and wholly failed to show just where these alleged savings had been made. 'By resolution introduced on February 9 he was requested to give congress the details of these figures. After a delay of three months, the director of the budget confessed that the sums named 'represents reductions, some of which are real savings, and some of them cannot be considered as savings.' He says that 'the original statement of the president was not based on facts.'"

NEW CONFERENCE CALLED MONDAY

Continued from first page.

of the man who fell into a well head foremost.

Dr. Anthony Speaks.
Dr. Bascom Anthony, of Macon, chairman of the committee on resolutions, delivered a forcible speech against the measure, which was voted down in overwhelming defeat. It is becoming more and more apparent that the "conservative" are in the decided majority in the body. Dr. A. J. Lamar, of Nashville, who is the general conference treasurer, states that the session of 1922 cost \$20,000, and that the present session will aggregate a delegate expense account of approximately \$70,000; and the question of payment of principal and alternate delegates' expenses was referred to the committee on rules for instruction. After a meeting of the rules committee, the chairman, Hon. John M. Holder, of Atlanta, instructed the treasurer to pay only one delegate's traveling expense account, and in case of the necessity for the alternate delegate that the allowed traveling expense account be shared equally between the principal and alternate delegate.

Thursday evening was set as the time to hear the greetings from the fraternal messengers.

Song Services.
Dr. and Mrs. L. B. Bridger, of Gainesville, are conducting a song service at the Eastman hotel each afternoon at 5 o'clock, and have added much by their splendid music to a number of general evangelists. Bishop J. M. Moore, of Nashville, Tenn., and Dr. W. A. Shelton, of Atlanta, were eloquent and edifying speakers at the Sunday school and Far East relief programs at 8 p. m.

TO PAY LAST TRIBUTE TO JUDGE EVANS

Continued from first page.

late this afternoon and accompanied the remains to the special car which bore it away to Washington county.

Local officers of the federal court accompanied the funeral party to Sandersonville. All courts here adjourned today in honor of Judge Evans and messages of condolence poured into the home all day, among those received being messages from Gov. Hardwick and many other state officials, judges of United States courts and private citizens.

The out-of-town honorary pallbearers will join the others going from here in Sandersonville. They are Judge S. H. Sibley, Chief Justice Fish, Atlanta; Judge Marcus Beck, Judge J. K. Hines and Judge Samuel Atkinson, Atlanta.

Georgia Bar Escort.
A message from Mercer university today expressed sorrow and said that

institution had "lost its greatest alumnus" in the passing of Judge Evans. The Georgia Bar association will send an honorary escort to Sandersonville, the president, Judge A. G. Fowell, naming the following: Judge Andrew Cobb, Athens; H. C. Peoples, Atlanta; Z. D. Harrison, Atlanta; A. A. Lawrence and Max Isaac, Savannah; Harry S. Strosier and R. C. Jordan, Macon; H. H. Swift, Columbus; Judge J. R. Fottle, Albany; Judge R. B. Russell, Winder; J. W. Bennett, Waycross; C. Henry Cohen, Augusta; E. K. Wilcox, Valdosta; D. W. Fortson, Avila; A. S. Bradley, Swainsboro; E. M. Donaldson, Bainbridge; J. R. Phillips, Louisville, and Wallard Reese, Brunswick.

MANY MACON PEOPLE TO ATTEND FUNERAL

Macon, Ga., May 8.—(Special.)—Members of the Macon Bar association, federal court attaches and scores of other Macon people will leave tomorrow morning for Sandersonville to attend the funeral of Judge Evans, to be held Tuesday afternoon.

Committees to act as an honorary escort and draw up a suitable memorial were appointed today at a meeting of the association in the federal courtroom.

The honorary escort is composed of Warren Grice, Orville A. Park, Walter A. Harris, John P. Ross, Malcolm D. Jones, M. Felton Hatcher, C. L. Bartlett and Harry S. Strosier. A suitable floral tribute will be sent by the bar association and a committee was appointed to prepare a memorial to be presented at the next term of federal court in commemoration of Judge Evans. The committee includes Wallace Miller, E. Clem Powers, Robert W. Barnes, R. L. Anderson, Will Gunn and J. N. Talley.

Expresses Regret.
Before the meeting of the bar association today, L. M. Erwin, clerk of the United States court, officially announced the death of Judge Evans and made a few remarks expressing his own personal sorrow and that of other court attaches in the loss of such an eminent jurist.

He then excused, subject to recall, all jurors, and turned the meeting over to Roland Ellis, president of the Macon Bar association. About 75 members were present. The superior court, the only other court in session today, was recessed by Judge H. A. Mathews, out of respect to Judge Evans, and so lawyers could attend the meeting.

Under the circumstances the May terms of United States court is still in session, and will remain so until adjourned by proper authority. All cases set for trial during the term have been continued until further notice, and attorneys in cases set for trial have been notified to this effect by Miss Irene Elkins, deputy clerk. Notices were mailed out today.

here today as a mark of respect to Judge Beverly D. Evans, whose sudden death at Savannah Sunday was announced in open court by J. C. C. Black, Sr., president of the Augusta Bar association. A delegation from the association will go to Sandersonville to attend the funeral. The federal court building here is draped in mourning in honor of the deceased jurist.

All offices in the state capitol, at the instigation of Governor Hardwick, will be closed Tuesday between 4 and 5 o'clock and all branches of the superior court in the county courthouse will be closed all day out of respect to the memory of Judge Evans, whose funeral will be held at 6 o'clock in Sandersonville.

A number of Judge Evans' intimate friends from the capitol, who were formerly associated with him during his five years' service on state supreme court bench here, stated Monday they would attend the funeral.

HOTEL OWNER KILLS
FORMER SECRETARY

Joliet, Ill., May 8.—Dr. L. McRoberts, a wealthy hotel owner, shot and killed Miss Mabel Kerwin, formerly his secretary, and then killed himself today.

A few weeks ago Miss Kerwin resigned after six years in McRoberts' employ.

Since that time, according to her mother, McRoberts had called many times asking her to return. She had refused to have anything to do with him. This morning he again came to the Kerwin apartment, but Miss Kerwin refused to speak to him in the hall or to let him come into her home. However, she agreed to go downstairs to the lobby with McRoberts.

They had hardly reached the ground floor when neighbors heard two shots. They found the two lying on the floor, McRoberts dying and the girl dead.

McRoberts was married and had a 10-year-old son.

MURDER CHARGES
IN A. B. & A. FIGHT

The issuance of warrants charging murder against Yardmaster R. B. Puckett, of the A. B. & A. railroad, and G. W. Wylie, clerk, were development Monday in connection with the battle Sunday afternoon between negro employees of the A. B. & A. railroad and a crowd of white boys, which resulted in Dan Walton, age 18, being killed, and five others being injured. Both men are now under arrest.

Solicitor General John A. Boykin, is absent from the city, and no one connected with his office would intimate what steps had been taken to investigate the trouble by that office. Special Investigator Plenie Miner is also out of town, though it is understood that plans are being made to have the affair thoroughly probed by the grand jury.

The warrants against Yardmaster Puckett and Mr. Wylie were sworn

Broad at Walton Street

out in the municipal court by W. H. Chastain, a brother of J. J. Chastain, of 244 1/2 Bellwood avenue, who is believed to have been fatally wounded in the fight. Both Puckett and Wylie were arrested Sunday afternoon when the negro, Charlie Hunt, was taken into custody by Sheriff James I. Lowry and held under a charge of "suspicion."

Two Badly Wounded. Two others besides J. J. Chastain are probably fatally wounded. They are Kelley Bailey, 18, who lives at 203 Bellwood avenue; he received a serious wound in the stomach; and the negro, Albert Everett, who was shot through the lung by Patrolmen A. R. Niles and W. S. Morgan, attempting to escape. Joe Bailey, brother of Kelley Bailey, who sustained a wound in the arm and leg and C. S. Garner, of 680 Ashby street, were reported to be resting comfortably and improved by physicians at the Grady.

Three negroes also are held in jail in connection with the shooting. They are Charlie Hunt, the negro who, police claim, admits using the shotgun, Robert Williams and Charles Manley. The negro, Albert Everett, who was seriously wounded by officers, will be placed in the jail as soon as his condition has sufficiently improved, according to the police.

Hunt, according to the officers, claims to have shot his way out of his own life, and after he had been assaulted by a large number of white boys at the corner of Bellwood avenue and Ashby street as he was en route to his work as porter in the A. B. & A. yard office. It is claimed the boys followed him to the yard office on the railroad property, rocking him, and he states he then ran into the office and obtained the shotgun, coming out and defending himself.

Both Yardmaster Puckett and Mr. Wylie, the clerk, deny emphatically that either handed the gun, or advised him to use it, as has been charged by various parties. They both state that they knew nothing of the negro's having the gun and doing the shooting until after it was over.

Statement by Bug. The following statement was issued Monday by Colonel B. L. Bug, receiver for the A. B. & A. railroad, who had the affair thoroughly probed: "Our investigation shows that Charlie Hunt, employed as a porter in the yard office, and Albert Everett, employed as a hostler's helper, were on the way to their work, and in passing the grocery store on the corner of Ashby and Bellwood avenue, a crowd composed mainly of young men congregated there began to abuse them for working for the A. B. & A. railroad."

"They followed this by throwing rocks at Hunt and Everett, who retreated on to the property of the A. B. & A. The crowd continued to follow them, throwing rocks all the time, and were within about thirty feet of the main line track of the A. B. & A. when Charlie Hunt ran into a vacant room of the yard office and picked up a shotgun, which was used and had been left there by the night watchman. He then ran out and fired into the crowd."

"Charlie Hunt has been in the employ of the railroad for five or six months and has shown himself to be a quiet, hard-working negro. Albert Everett has been employed for about a year and has demeaned himself in a quiet and orderly way."

"R. B. Puckett, the yardmaster, was not at the office when the shooting took place, but was at his home on Bellwood avenue, some distance away. Mr. Wylie, the yard clerk, was not in the room where the night watchman kept his gun and did not see Charlie Hunt when he took the gun. He was in another room at the time telephoning police headquarters for officers to stop the disturbance. Mr. Puckett has been in the service of the A. B. & A. for ten years. Mr. Wylie has been in his service about a year."

POLICE ARE PROBING
MOB STORY OF NEGRO

Police Monday were investigating the story told by Will Peters, negro, who claims to have been assaulted and shot by a band of masked men in Oconee county Saturday night. He was taken into custody Sunday when he went to the Grady hospital for medical treatment.

The negro told the police that he returned the fire in an effort to defend his own life, and that he did not know whether he injured any of the mob or not.

FORMER GEORGIA MAN
DIRECTS RELIEF WORK

Transportation of forty carloads of American corn to the hunger-stricken regions of soviet Russia is being directed by Charles S. Morris, of Milledgeville, according to news reaching Atlanta Monday from relief headquarters in New York.

Prior to the war Mr. Morris was a secretary in the court of appeals here. He was chief clerk to the inspector general with the American forces in Germany, and joined the American Relief administration forces entering Russia.

PLAY WILL BE GIVEN
AT GLENNWOOD SCHOOL

A play entitled "A Sensational Divorce Case" will be presented tonight at 8 o'clock by the parent-teacher association of the Glennwood school, of Decatur, at the DeKalb county courthouse. Among the leading participants will be Rayne Gibson, William Biggers, J. A. Campbell, Hugh Trotter, Boyd Sutton, Wylie West, A. F. Turner and many others. The public is invited.

Rast Trial Delayed.

Orangeburg, S. C., May 8.—Trial of Claude J. Rast, charged with attacking a pupil in a school where he was principal in December, 1920, was postponed today until tomorrow.

Admiral Fullam
Stresses Value
Of Air Service

Details have been completed for a program of unusual interest to be carried out this evening by the Atlanta Foreign Trade club in the breakfast room of the Kimball house. A banquet, to which have been invited presidents of the various civic clubs and commercial organizations and a large number of business men interested in foreign trade, will be held at 7 o'clock, and a meeting, to which the general public is invited, will take place at 8:00.

The event will be marked by addresses from distinguished speakers who include Governor Thomas W. Hardwick, Secretary of State Gurt McLeod, Rear Admiral William F. Fullam, Ralph H. Ackerman, chief of the Latin-American division of the bureau of foreign and domestic commerce, Walter D. Foote, president of the Atlanta Chamber of Commerce, John Ashley Jones, consul for Panama, and B. S. Barker, secretary of the local chamber.

T. R. Gress, of the attorney general's office, will act as toastmaster and President James Metcalf will preside.

Rear Admiral to Speak. A feature of marked importance will be the address of Rear Admiral Fullam, who will outline the possibilities of commercial aviation in the development of overseas commerce. Admiral Fullam is in Atlanta to perfect plans for the formation of a branch of the National Aeronautical association in this city, and has conferred at length with the mayor, officials of the chamber of commerce and local civic clubs concerning details of the project. The association is an outgrowth of the Aero club of America and as outlined by Admiral Fullam in a special interview Monday, is engaged in promoting aeronautics throughout the country for commercial and national purposes with the definite objects of establishing air routes, landing fields, the extension of the air mail service and ultimately to carry aviation as far

as possible across the seas and along the coasts and West Indies, and to South American ports.

"It is generally recognized that air power will dominate in war ashore and afloat," stated the admiral. "Commanding the air, you command the surface below, whether on land or at sea. Therefore the nation that loses the command of the air will be completely at the mercy of a nation that attacks it from the air."

"If we command the air with a strong air force we cannot be invaded from overseas. It will not be possible in the future to send an army overseas against the nation that has a powerful air force. The army could never land under such conditions, or, if by any chance troops did land, they would never return because their transports would be destroyed unless completely protected from above. The landing of our 2,000,000 men in France was only possible because Germany could not attack them with an air force at that time, and her submarines were ordered not to attack men-of-war or protected transports, because they were to expend all their ammunition and effort in sinking defenseless merchant ships in order to starve England. Starving England would have won the war no matter how many men we got into France."

Protect Weak Nations. "Air forces, reinforced by submarines and mines, will protect even a weak nation against aggression and invasion from overseas. These weapons, therefore, conduce to peace between the continents. There may be continental wars a-plenty—that is, wars in Europe, in Asia and in America—but to carry on war across the ocean will be practically impossible in the future. Intercontinental wars will be discouraged. This is admitted by the best naval authorities in Europe and in the United States."

"The army and navy wish to see commercial aviation developed because congress could never appropriate money enough to supply air forces for war alone. The commercial equipment will be used by the army and navy in times of war. The Washington conference placed no limit upon the number of airplanes and airships a nation could have, because it rightly recognized the great commercial value and the future development of aircraft for peace purposes."

Admiral Fullam was in command of the United States naval forces in

the Pacific during the world war and was awarded the navy cross for distinguished service. He is now retired after 49 years of active service. 24 of which were on board ships of all kinds. He has been in command of ships and fleets for 10 years and served during the Spanish-American war at Santiago and Porto Rico. During 1914-15 he was Superintendent of the U. S. Naval Academy at Annapolis, and prior to that commander of the Newport and Chicago naval training stations.

FOUR NEGROES
TO GO ON TRIAL
TODAY FOR MURDER

Macon, Ga., May 8.—(Special.)—Four negroes, Bob Burkett, Jack Smiley, London Owens and Emmett Smith, alias Charlie Smith, will be placed on trial in Bibb superior court tomorrow morning on charges of murdering a Lee Aligood, a street car motorman.

Burkett is alleged to have confessed to his part of the crime, implicating the others. Aligood was shot and killed while on his car near Ocmulgee park several months ago. Burkett is said to have confessed that he and the other negroes planned to rob him, but when Aligood showed fight, they shot him.

CAPTAIN COOK WILL
REMAIN IN ATLANTA

Captain Raymond P. Cook, assistant professor of military science and tactics of the Atlanta public schools, detailed at Tech High school, will remain at his post here another year, it was learned Monday in a wire received by Superintendent W. A. Sutton from Washington.

The war department had previously ordered Captain Cook to school at Fort Benning, but at the request of Superintendent Sutton and Senator Harris, the order was revoked.

Captain Cook has held his present post for three years and is associated with Major W. B. Dove, in charge of the R. O. T. C. training at Tech High school.

At the end of the next scholastic term Captain Cook will be due for foreign service.

The Associated Press is exclusively entitled to the use of publication of all news dispatches credited to it, and also the local edition in this paper, and also the local edition in this paper, and also the local edition in this paper.

THE BOND ELECTION.

It is the duty of every qualified voter, man or woman, in Fulton county to go to the polls today and record his or her attitude toward the proposed county school bond issue.

The proposal calls for a bond issue of \$500,000, the money to be applied to the expansion and development of the educational facilities of the rural districts of the county, the very commendable purpose being to place them on a basis of relative equality with the facilities available to the boys and girls who live in the city.

The proposition that country boys and girls are entitled to educational opportunities equal to those enjoyed by urban children is one that is not debatable.

As matters stand the rural districts of Fulton county are at a disadvantage in point of school facilities, by comparison with those of the city; and the disparity will be immeasurably widened with the completion of the public school improvements Atlanta now has under way.

There is only one way by which the rural communities can provide school facilities on a parity with those of the city and in keeping with the needs and rights of their children, and that is by paying for them.

And the only scientific, feasible and practical means whereby to raise the money necessary to provide such facilities, is by the bonding process.

It is to be hoped, therefore, that the bond issue proposal to be voted upon today will be affirmed by the voters.

But if it is defeated, let it be defeated by the expressed will of the people and not by the failure of the fathers and mothers of the rural boys and girls of Fulton county to go to the polls and express their preference upon a matter of such vital and far-reaching importance to every household in the county.

DOWN TO BUSINESS.

In an optimistic forecast, due to steadily brightening business prospects, The Cordele (Ga.) Dispatch says that some months ago "no body was paying up," but that now "people are getting back to earth again," paying as they go, and living more nearly on their income.

And this, it is pointed out, is not only speaking for one section, but it is pretty much the case in every progressive town and county.

Money is seeking legitimate investment, and "the change in business will soon be marked on all sides."

More building is going on everywhere, and this, apart from other hopeful influences, "means more money in circulation."

Altogether, the Cordele paper sums up the local business outlook as "quite encouraging," even while taking account of the fact that the "gloom prophets" are still in evidence.

And The Tifton (Ga.) Gazette, taking the same optimistic view, says that we "haven't been doing so badly, after all," and quotes this paragraph from The Florida Times-Union—

"Nearly 100 per cent more money has been spent in church building than the year before, leading all other classes of construction. Hospital building ranks next. Church membership is increasing at a remarkable rate, and yet some people say that we are going to the demeriton bow-wow as fast as we can."

Home-ownership is increasing in the cities and the smaller towns, and money is being invested to a most encouraging extent in farming lands.

And more intelligent farming

methods mean a greater agricultural prosperity wherever they are in operation.

The live-at-home plan is working well, and there is good reason for the cheerful, working spirit everywhere.

JUDGE EVANS.

The deplorable death of Judge Beverly D. Evans, United States district judge for the southern district of Georgia, has robbed the federal bench of one of its ablest jurists; the bar, of one of its most distinguished members, and the state, of a citizen whose place will be hard to fill.

A native Georgian, Judge Evans spent his entire life in this state, save for the few years that he spent in pursuit of his education at Yale; and it was a life spent in service to his community and his fellow man.

Notwithstanding the fact that he died young in years and at the very height of his usefulness to his state and country, he had attained a point of eminence in his profession which it is the privilege and with in the intellectual power of relatively few men to gain.

He was actuated throughout his career by the most exalted motives. He had high standards of conduct in his profession, as a judge, and as a member of the bar and of the community in which he lived; and he used them for the elevation of his profession and for the betterment of society.

The influence of such a life as his never dies, but lives on and ennobles and enriches the other lives influenced by it.

The passing of Judge Evans is a bereavement to the many thousands who knew him and a distinct loss to the state and to the nation.

KEEP IT UP!

It is gratifying to the Atlanta public to be assured that the Citizens' Safety association has resumed its campaign to reduce traffic hazard on the streets of this city.

The association did splendid service last fall and winter, mainly in an educational way, but there is still much to be done, and the announcement which accompanied that of its election of a new corps of officers the other day, to the effect that the organization "is planning to resume warfare against reckless automobile drivers," is highly reassuring.

It is largely due to the commendable educational campaign conducted under the auspices of this organization that our splendid downtown traffic signal system was installed, that the street intersections in the congested district were marked with safety lines, and that the dangerous practice of "jay-walking" has been practically eliminated.

But despite these marked improvements, the death rate by accidents on the streets of Atlanta is still deplorably and inordinately high.

This fact, according to officials of the association, is due, not to carelessness or negligence on the part of pedestrians, but mainly to recklessness or criminal heedlessness on the part of automobile drivers.

George A. Delbert, Secretary of the organization, issued a statement a few days ago in which he said:

"We want to pay the general walking public a compliment for the splendid manner in which it has taken up the matter of obeying traffic rules and in doing its part and more toward making Atlanta's streets safe for pedestrians."

"The people are obeying the signal lights in the new traffic tower with highly commendable spirit, and I have even seen them stop and look for the lights when the towers were not in action. Atlanta is realizing the worth of these towers, and she is doing all in her power to make their operation a success."

"Safety zones, crossing lines and other traffic devices are being splendidly observed, and the walker is doing his full share toward keeping down the toll of recklessness."

All of this is most gratifying, and speaks well both for the methods employed by the association and for the manner in which the public has responded; but, Mr. Delbert went on to say—

"While it may not seem true, there has been practically no decrease in the number of accidents from the average of last year. The reason people have not thought of the matter is that no prominent car or woman has been killed recently, but that does not mean that careless drivers have not killed people of the same old rate."

Mr. Delbert said that "joy riders, intoxicated drivers and speed fiends are still at work and are uncurbed," which suggests the problem that is still ahead of the Citizens' Safety association.

And whatever may be the methods it intends to employ in bringing about a solution of that problem, it deserves the support and wholehearted co-operation of the law-respecting people of Atlanta in its efforts to that end.

One of the infant republics is talking of prohibition. Oh, well; the good dry year.

Apparently the most effective means of birth control is the size of the modern apartment.

Just From Georgia

BY FRANK L. STANTON

Keep the Way.

Take the red thorn with the rose.

Any time in the country goes.

Heed not how the country goes.

You just keep the way!

Keep the way in storm and night.

When no golden star's in sight.

Sing! "It will soon be light!"

Keep the way—the way!

II.

Sorrow'll meet you—take your hand—

Have sad words to say; Leave her in her lonesome land—

You just keep the way!

Keep the way though skies be drear

O'er the valleys of despair.

Think! The sunshine's off some

where—

Keep the way—the way!

III.

They Had Their Troubles, Too.

The Nashville (Ark.) Times notes

that a stone tax receipt 4,500 years

old has been dug up on the banks of

the Euphrates, showing the old times

also had to kick in with the high-

tin cans, sport shirts or whatever

they used for coin in those days.

A Sunny Day.

Here comes Lady Summer,

With her bees and honeycomb,

Asking at a garden gate,

"Is Mistress Spring at home?"

She heard sweet Spring had gone

away

And left us but a rainy day.

IV.

Welcome, Lady Summer!

And maybe you will teach Miss Spring

To sing a sweeter song.

The sunshine that you bring to May

Rewards us for the rainy day.

A Charming Old Story.

(Christopher Morley, in New York

Evening Post.)

To Old Tom Dreier, of Winchester,

Mass., we are in permanent arrears;

for in his little magazine, The Vag-

bond, we find the following quotation

from "an old English tale":

A Gentleman, having led a com-

pany of children beyond their usual

journey, they began to be weary,

and, joyfully cried to him to

carry them; which because of their

multitude he could not do, but

thought them he wd provide

horns to ride on. Then

cutting little wands out of the

hedge as nagges for them, & a

EVANS' SUCCESSOR TO BE REPUBLICAN

BY JAMES A. HOLLOMAN.

Washington, May 8.—(By Constitution Leased Wire).—The fight for a successor to Judge Beverly D. Evans has already begun, and several telegrams endorsing one lawyer and another were received in Washington today.

The nomination by the president of a judge for the southern district will be made before that of the additional judge for both Georgia districts provided in the new federal judgeship bill which is now in conference, as the district is congested with work and the department of justice feels that a vacancy in Georgia should not exist any longer than possible, and yet, it is learned on the best of authority, that Attorney-General Daugherty will weigh the merits of applicants with a great deal of care and will take no hasty action, even though it becomes necessary to call upon Judge

Bryan, of the United States circuit court of appeals, to supply a federal judge for the south Georgia courts for a few weeks.

For the appointment several names are being suggested, among them being Herschel Williams, of Dublin; Charles Akerman, of Macon, and F. G. Boatwright, of Cordele.

It is known that Boatwright has been practically agreed upon as the successor to District Attorney John W. Bennett, democrat, whose term expires in October, and who has already resigned to take effect at that time. It is urged by Boatwright's friends that he be given the judgeship instead, now that the vacancy has occurred.

The friends of Williams have for several weeks been active in his behalf for the new or third judgeship to be created under the general bill now before the conference. He has already secured the endorsement of resolutions of a large number of city and county bar associations, and is looked upon as one of the most likely applicants.

Akerman was formerly republican district attorney for the southern district of Georgia and all three of these attorneys, Boatwright, Akerman and Williams, are republicans. The department of justice has made it clear that a republican would be appointed to the new Georgia judgeship, when the bill becomes a law, and it is stated today that none but a republican will be seriously considered for the vacancy caused by the death of Judge Evans. The successor to Judge Evans, under the old statute, must be a legal resident of the district in which he is to preside, hence the futility of any applicant north of Macon, or in the northern district of Georgia, applying for the job.

For Third Place. The new judgeship bill, in the amendment providing for a third judge for Georgia, provides that the new judge may preside in either the northern or southern districts, as it may be found necessary in relieving crowded calendars; hence his appointment may be made from either district, or from any section of Georgia.

Among others mentioned for the proposed third judgeship are Joseph Tilson, of Atlanta; Thomas B. Scott, of Atlanta, and C. A. Cook, of Columbus, all of whom are republicans. Many democrats have been mentioned, including Governor Hardwick, Judge Luke, Judge Arch Lovett, Judge Terrell, Judge Holderness and others.

Should the bill now in conference be accepted by the house conference as amended in the senate, Georgia will have two republican federal judges, and one democrat, the latter being Judge Samuel Shibley, the incumbent. It became known that a terrific fight will be made before the conference for the omission of Georgia from the bill, although Georgia needs an additional judge more than any of the states named in the bill. The whole bill is regarded by the democrats generally as a political measure pure and simple, the G. O. P. adopting it as one of the means for further anchoring the party ship in troubled waters these days. A similar scheme at party anchors has just run on the rocks, the attempt to create twelve new district revenue districts in the United States. The measure was quickly withdrawn from the house programs when it was seen it could not weather a storm of popular protest.

The death of Judge Evans, of Georgia, has cast a deep gloom over Georgians at the capital, and members of congress all expressed their deep appreciation of his life and works today.

GEORGIA TO GET BIG PROPORTION FARM LOAN BONDS

BY JAMES A. HOLLOMAN.

Washington, May 8.—(By Constitution Leased Wire).—Out of the \$75,000,000 farm loan bond issue put on the market today, the board will allot \$10,000,000 to the Federal Land bank at Columbia, S. C. This amount will for the Columbia bank be \$2,500,000 more than the amount allotted to the southeastern bank from similar bond sales in the past, and \$1,500,000 more than is allotted to any other land bank out of the present issue.

The Georgia delegation was assured that Georgia would get a relatively larger amount out of the issue on sale today than any sales in the past. It was stated in these dispatches Sunday that a bond issue would soon be placed on the market. The Columbia bank officials have advised Senator Harris they plan resuming the acceptance of farm loan applications within the next two weeks. The applications will be allotted to the various local associations by the bank in communications to the secretary-treasurers.

SIX MEET DEATH AT GRADE CROSSING

Vancouver, B. C., May 8.—Six persons were killed when their automobile was struck by a train at Neicomen Level crossing of the Dewdney Trunk road, near Mission City, late last night.

A dispatch received today giving the first word of the accident, gave the names of the dead as Oliver Deroche, the town of Deroche, after whom the town of Deroche, also of Deroche; Alex. her son; Bert George, a farm hand; Miss Margaret Pentland of Mission City, and a man known as "Shorty."

Bishop Candler Renders Report On This District

BY REV. W. A. BROOKS.

Hot Springs, Ark., May 8.—(Special).—Bishop Warren A. Candler, of Atlanta, has been in charge of the third Episcopal district during the past quadrennium, and his report to the general conference of the Methodist Episcopal church, south, is a most gratifying one. Having been in charge of the Georgia conference for the past eight years, with the exception of the South Georgia conference in 1915, Bishop Candler has wrought both wisely and well, and has been truly a prophet with honor among his own people. His splendid report is as follows:

Text of Report. The general conference of 1918 recommended that "each bishop shall make to the next general conference a full report of the work in his district, giving statistics of church membership, gains and losses, new enterprises, and especially the spiritual outlook of his district." In conformity with this recommendation I beg to submit the following report of the district composed of the North Georgia, South Georgia, and Florida conferences.

At the close of the year 1917 the church membership in these conferences was reported as follows:

North Georgia 124,373
South Georgia 95,719
Florida 42,300

Total 262,392

At the end of the year 1921 the membership in these conferences was as follows:

North Georgia 137,250
South Georgia 114,009
Florida 40,650

Total 291,918

The increase of members in the district is therefore as follows:

North Georgia 12,886
South Georgia 18,890
Florida 4,650

Total 36,326

Number of Preachers. During the same period the total number of local preachers in the district decreased by twelve, North Georgia showing an increase of nine, South Georgia a decrease of seventeen, and Florida a decrease of four.

During the same period the number of traveling preachers in the district increased by twenty-four, North Georgia showing a decrease of fifteen, South Georgia an increase of twenty-three, and Florida an increase of sixteen.

In 1917 the value of churches was reported as follows:

North Georgia \$3,318,484
South Georgia 2,449,909
Florida 1,472,175

Total \$7,240,568

During the quadrennium the value of churches and parsonages rose to \$12,439,899, or an increase of \$5,199,331.

Target Accident Victims Provided For By Congress

BY JAMES A. HOLLOMAN.

Washington, May 8.—(By Constitution Leased Wire).—Congressman Lee, of the seventh, has had passed by the house a bill for the relief of the victims of the Kennesaw mountain accident that occurred during target practice in the early months of mobilization at Camp Gordon. It provides that the secretary of the treasury be authorized through the United States employees' compensation commission, to pay to the following named persons the sums designated as compensation for personal injury and death suffered through the explosion of a certain shell fired by the student officers of Fort McPherson on the south side of Kennesaw mountain, Cobb county, Georgia, on August 8, 1917:

To the guardian of the two surviving minor children of Seth J. Harris, \$20 per month each until they shall reach the age of eighteen years, monthly compensation to commence from date of the accident.

To Jimmie Lou Martin, on account of the death of her husband, Charlie Martin, the sum of \$35 per month until her remarriage or death and \$30 additional per month for each of her six minor children and in the event of the remarriage or death of Jimmie Lou Martin, payments on account of minor children shall be paid to their guardian or guardians until such time as they shall have reached the age of eighteen years respectively. Monthly compensation to commence from the date of the accident.

To Mary Holloman, on account of the death of her husband, James Holloman, the sum of \$35 per month until her remarriage or death and \$30 additional per month for each of her two minor children and in the event of the remarriage or death of Mary Holloman payments on account of said minor children shall be paid to their guardian or guardians until such time as they shall have reached the age of eighteen years respectively. Monthly compensation to commence from the date of the accident.

To William Henry Coleman for personal injuries the sum of \$300.

HEARING OF GRAFT CHARGES CALLED BY FINANCE HEAD

Councilman J. R. Seawright, chairman of the council finance committee, announced Monday that the first hearing of the committee into charges of graft in connection with the letting of a contract to audit the city's books will be held Wednesday afternoon at 2:30 o'clock.

C. H. Lapsley, of the accounting firm of 1918 Lapsley, Co., and Ernest Clayton, of the firm of Clayton, Eaton, Horton & Saussey, both of whom made implied charges of graft, will be called to testify.

The committee is empowered by a special resolution passed by council at its last meeting to subpoena and require attendance of witnesses and to compel production of papers and documents.

Fourth Negro Dies At Lynchers' Hands For Texas Horror

Fort Worth, Texas, May 8.—The body of a negro, Tom Cornish, brother of John Cornish, one of the victims of the Kirvin mob Saturday morning, was found hanging to a tree limb by a farmer residing near Kirvin. Officers at Teague were informed by telephone.

Advices from Teague said that Kirvin citizens believed from Tom Cornish's statement that he had something to do with the slaying of Eula Ausley, for which John Cornish and two other negroes were burned at the stake.

STATE RANGERS ORDERED TO SCENE. Austin, Texas, May 8.—Governor Neff today ordered two detachments of state rangers to be sent immediately to Fairfield county, seat of Fre-

stone county, to prevent any uprising of negroes, which Sheriff W. Mayo, of Freestone county, said was imminent. The sheriff, in a message, said the negroes of the county are threatening to avenge the death of three negroes who were burned at Kirvin Saturday morning.

FEELING BLUE? LIVER LAZY? TAKE A CALOTAB

Wonderful How Young and Energetic You Feel After Taking This De-Nauseated Calomel Tablet.

If you have not tried Calotabs you have a delightful surprise awaiting you. The wonderful liver-cleansing and system-purifying properties of the "clearest" unpleasantness. A Calotab at bedtime with a swallow of water—that's all. No taste, no nausea, nor the slightest unpleasant after-effects. You wake up in the morning feeling so good that you want to laugh about it. Your liver is clean, your system is purified, your appetite hearty. Eat what you wish—no danger. The next time you feel lazy, mean, nervous, blue or discouraged give your liver a thorough cleansing with a Calotab.

Beware of imitations! Genuine Calotabs are sold only in "checkered" (black and white) packages bearing the copyrighted trade-mark "Calotabs." The large, family size sells for thirty-five cents; vest-pocket size, ten cents. All dealers are authorized to refund the price if you are not delighted with Calotabs. (adv.)

SIX MEN MENTIONED FOR TAX COLLECTOR

Two more names were mentioned Monday in the race for city tax collector to succeed Frank F. Smith, resigned. They were W. M. Bearden, chief clerk in the office of city tax assessor, and Tom Poole, state treasurer of the national Red Men's organization.

Other possible candidates mentioned several days ago were Marvin P. Roane, Harry Perckerson, Drew Liddell and Marion Mendenhall. None of them named has made public announcement of his candidacy.

Nearly a Million Increase and Still Growing

Slightly over ten years ago the Fulton National Bank swung open its doors to Atlanta, and announced its willingness to serve the community.

Today it is considered the fastest growing National Bank in this section. On December 17, 1921, the day before we moved into our new building, our deposits were \$4,304,301.35. Since that time, not five months ago, our deposits have increased nearly a million dollars as shown in the figures below.

STATEMENT OF CONDITION AT CLOSE OF BUSINESS MAY 5th, 1922.

RESOURCES:

Loans and Discount	\$4,375,675.79
Overdrafts	1,960.71
U. S. Bonds	674,151.32
Bonds, Securities, etc.	173,940.62
Bank Building	348,419.12
Real Estate	20,000.00
Cash on hand and due from Banks and U. S. Treasury	1,240,810.71
	\$6,834,958.27

LIABILITIES:

Capital Stock	\$ 750,000.00
Surplus and undivided profits	348,883.36
Reserved for Interest and Taxes	20,000.00
Dividends Unpaid	331.50
Circulation Account	499,997.50
Bills Payable and Rediscounts	NONE
Deposits	5,217,745.91
	\$6,834,958.27

The constant growth of the Fulton has steadily increased its strength, its ability and service-giving capacity.

VANDY TRACK OUTLOOK BAD

Nashville, Tenn., May 8.—(Special.)—Vanderbilt's chances for the S. I. A. A. in Baton Rouge, La., next Friday and Saturday will be largely dependent upon weather conditions for the three first days of this week. Continued rains for the past week, following the Drake relay trip, left the team in very poor condition, and three days of warm weather are badly needed before the team leaves Wednesday night for the big meet at J. S. U.

Howell's winning of the Birmingham 2-mile event practically clinches that place for him in the S. I. A. A., but there's little further hope for a big showing with the possible exception of Tom Ryan on the discus, and a chance for Stack to come around on the 100-yard dash. Welch on the discus event at Birmingham with 117 feet, and Ryan has been doing over 120 consistently since the opening of the season. He has straightened out his differences with the faculty over a single hour's work, and will be ready for a trial at the S. I. A. A. event.

Vandy Outclassed.
Winning requirements are practically above Vandy's class in the other events on the form shown in the Birmingham meet, with the possible exception of the relay event. With good weather and suitable conditions, Wakefield, Stack, Mixon and Nance should even yet make a very creditable showing for the mile event. Had weather conditions been more suitable, the four would have made anyone stretch to win the event.

At the shot, pole vault, 22 sprint, half-mile run, mile, broad and high jump, and various other events, Vandy secretly has men capable of placing. Mixon has possible chances of getting around the lead in the quarter, but needs considerable training to win that event over the fast field entered in the races.

Howell, Mixon, Stack, Wakefield, Nance, Ryan and Rountree are practically certain to make the trip, and possibly Peck for the half mile.

Many high schools and colleges are adding to their curriculums special courses in instruction in girl scout camps. During 1920 50 large Girl Scout camps were organized in the United States, which offered a holiday to several thousand girls.

SOME NEWS BITS

BY UNITED NEWS

NEW YORK, MAY 8.—Notwithstanding Benny Leonard's harsh words concerning Lew Tendler's professional ethics, a lightweight championship fight with Leonard defending his title against the Philadelphia left-hander, is expected to be a feature number of the summer's open-air boxing program, probably in Jersey City. Leonard publicly rebuked Tendler for declining an alleged offer of \$62,500 from Tex Rickard for a 12-round no-decision match at Boyle's 30-acres, and as soon as the interest becomes a few degrees warmer the boys will sign.

ALTHOUGH Johnny Dundee made a great show of gameness, taking a terrific beating about the body from Tendler, and defending himself with the handicap of a busted right hand, the fight did Dundee no good in either a business or a physical way. Veteran trainers at the ringside said Dundee should have quit to avoid being "softened up" for the next tough man who fights him. Dundee has lost two decisions recently, the one to Johnny Shugrue, a comparative novice.

THE FAMOUS old stadium on Franklin field, where the Penn relay carnivals were held, is almost entirely demolished now, and work will begin soon on the construction of the new sports amphitheater. The new stadium will be ready for the opening of the football season in the fall.

COACH LAWSON ROBERTSON of the Penn track team, is out with a choice of California to repeat with a victory in the intercollegiate championships this year, with Cornell and Leland Stanford second, and Penn or Princeton fourth.

"California apparently has all the first place men," said Robertson.

WILLIE JACKSON'S next fight will be an earnest row with his wife, Pauline, whose counsel appeared in the supreme court here Monday, demanding annual alimony of \$25,000 and counsel fees of \$7,500 in an action for a legal separation. Jackson's counsel announced that the lightweight fighter was seeking a divorce.

Jackson, whose right name is Oscar Tobin, has only \$4,000 left of all his ring rewards, according to his lawyer, because his wife had a penchant for sable coats and jewelry.

Tech High Wins Prep League Track Meet at Emory, Scoring 93 Points

BY ROY E. WHITE.

Tech High school added another championship to their string Monday afternoon on the Emory university track, when they ran wild with the prep league track meet. The final score was Tech High 93 points, Boys' High 27, G. M. A. 22 points, University 8 and Marist 4.

Tech High had a total of 11 first place, 2 second, 2 third and 4 fourth. Boys' High failed to make a first, but won second place by landing 3 seconds, 5 third and 8 fourth places. G. M. A. won half of the first place and University landed the other first place.

The leading scorers for the meet were Mays and Murray, of Tech High, tied with three first places, with "Boys" Smith also of the Smithies, a close second, with first and one second. Col. Bird, star track man on the Tech High team, failed to run in his usual form, placing second in both the 100 and 220-yard dashes.

Curran, of the Tech High team, won first in the 440-yard dash, with 131 feet. He also placed second in the 220-yard low hurdles, and third in the 100-yard dash.

Walsh, of the University team, made all 8 points by placing first in the 220 low hurdles and second in the 100 high hurdles.

In four of the events Tech High won three of the four places. In the mile race Mays won first place, Daniel second, and White third, all from Tech High. Boom, of Boys' High, finished fourth. Murray finished third, with Bird second, and Smith fourth, in the 100-yard dash. Roberts, of G. M. A., finished third.

Tech High's Scoring.
Tech High places either first or second in each event of the afternoon. The meet was one of the best in the history of the league, as far as the first two first places, with "Boys" Smith not included to accept such an excuse, and panned Don accordingly. Towards the end of the eighth inning giving him the "razz" via the Belmont route—a few sarcastic cheers.

Manager Dobbs probably will send either Monroe, Wright or one of his pitchers to the outfield in the event Brown doesn't show a disposition to speed up his efforts in going after balls which an average fielder could turn into easy putouts.

Events in their order follow:
100-Yard Dash—Mays, T. H. S., first time 10-2-5 seconds; Bird, T. H. S.; Roberts, G. M. A.; Smith, T. H. S.

220-Yard Dash—Murray, T. H. S., first time, 23-2-5 seconds; Bird, T. H. S.; Reagin, B. H. S.; Parks, B. H. S.

440-Yard Dash—Barber, T. H. S., first time, 56-3-5 seconds; Reeves, B. H. S.; Ford, B. H. S.; Reeves, G. M. A.

880-Yard Dash—Mays, T. H. S., first time, 2:11; Daniels, T. H. S.; Ford, B. H. S.; Barber, T. H. S.

One-Mile Run—Mays, T. H. S., first time, 4:53-2-5; Daniel, T. H. S.; White, T. H. S.; Boom, B. H. S.

220-Yard Low Hurdle—Walsh, U. S. B., first time, 25-2-5; Curran, T. H. S.; Roberts, G. M. A.; Gertman, B. H. S.

120-Yard High Hurdle—Cook, T. H. S., first time, 18-3-5; Walsh, U. S. B.; Gertman, B. H. S.; Branch, B. H. S.

Running Broad Jump—Roberts, G. M. A., first distance, 19 feet 5 1/2 inches; Smith, T. H. S.; Curran, T. H. S.; Dunn, B. H. S.

12-Pound Shot—Fair, G. M. A., first, 30 feet 8 inches; Cleveland, T. H. S.; Hamilton, G. M. A.; Holley, T. H. S.

Discus—Holly, T. H. S., first, 109 feet; Fair, G. M. A.; Jones, T. H. S.; Cleveland, T. H. S.

Pole Vault—Smith, T. H. S., first, 9 feet 9 inches; Ford and Gertman, of B. H. S., tied for second; Fitz, B. H. S.

High Jump—Smith and Jones, of T. H. S., tied first place, 5 feet 6 inches; Cleveland, T. H. S.; Reagin, B. H. S.

Javelin—Curran, T. H. S., first, 131 feet; Holland, Marist; Holley, T. H. S.; Parks, B. H. S.

Tech High won the relay race with Boys' High second; G. M. A., third, and Marist, fourth. The time was 1 minute 29-1-5 seconds.

The Tech High relay team was composed of Murray, Bird, B. W.; Bird, F. V., and Le Roy Smith.

The officials were A. A. Doonan, referee; W. A. Alexander, head timekeeper; H. G. Voorhis, head field judge; W. L. Stokes, starter; E. C. Ellis and W. P. Brandon, clerks, of course; and J. D. Cook, G. R. Mitchell, scorers Henley, timer.

SEWANEE IS 12-0 LOSER

BY DUKE MERRITT.
University of Alabama, May 8.—(Special.)—Alabama sent the Sewanee Tiger back to his lair in a maltreated condition, the beast departing from Denny field this afternoon with the diminutive end of a 12 to 0 count, and contentment prevails throughout the Warrior valley, for it is felt that this compensates in a large measure for the defeat suffered at the hands of the Tiger on the gridiron last fall.

Good pitching for Alabama, and wild, ineffective pitching for the visitors spelled their defeat. McMillan, Alabama's big right-hander, let the beaties down with seven isolated bingles and retired eight by the strikeout path. The Alabama men got thirteen hits as well as six bases on balls from the visiting trio of hurlers. Alabama winds up the season with two games with Mississippi A. and M. Friday and Saturday.

BROWN SHAKY IN OUTFIELD

NEW ORLEANS, May 8.—(Special.)—Larry Gilbert's value to the success of the Pelicans and winning games for the Pelicans pitching staff was certainly apparent to those who observed Don Brown, formerly of Memphis, permit fly balls to fall safely in front of him at Heinley's park in the first Lookout-Pel series.

Brown's outfielding was directly responsible for the loss of the contest. Because of Gilbert having strained his side slightly in sliding to second in one of the Little Rock contests, Brown probably will continue to play the outfield until Larry recovers.

After getting under Ripperton's spiral which went for three cushions in the first inning, permitting a pair of runs, Brown laid himself open to well-founded criticism to the extent when he seemed to stop running for Neidorkorn's short fly.

Had Gilbert been in the line-up of the Pelicans no doubt would have won over Chattanooga by a comfortable margin. Brown's poor work was responsible for two Chattanooga scores, the spectators lost no time putting Don in the grease. His work was wretched.

Ripperton Swat Hero.
Because of Brown's poor outfielding, "Peppy" Ripperton, former Pelican flycatcher, looked like a million dollars in the way of hitting. Ripperton snatched off three hits, single, double and triple. Any man who could knock a fly ball anywhere near center was practically certain of a base hit.

It may be that Brown, because of his absence from the game, is not at his best. Grand stand, however, was not inclined to accept such an excuse, and panned Don accordingly. Towards the end of the eighth inning giving him the "razz" via the Belmont route—a few sarcastic cheers.

Manager Dobbs probably will send either Monroe, Wright or one of his pitchers to the outfield in the event Brown doesn't show a disposition to speed up his efforts in going after balls which an average fielder could turn into easy putouts.

"PUTTING THE NEXT ONE OVER."
WITH "BUGS" DAER.

MON HOMME:

AS AN UMPIRE Gink Fowler was sandwich filler that would have fooled any louse. I knew him when he played rear base for the Hotentots. They wanted to make him emergency last boy, but he wasn't fast enough.

He would have been a ham in any smokehouse.

He used to call a strike and the militia with one breath.

If he was an umpire, then lollypops are concealed dangerous weapons and Eskimo pie is a threat instead of an invitation.

CHUCK CHAMBERS.
Of Pittsburgh, a Good Man's Town.

CHUCK AND Pittsburgh are like Gink Fowler and Houghton. Gink who had the inflammable nerve to step out there and defy the works, man to man, tooth to tooth and boot to boot.

BEFORE WE mention any more

cities we must have the names of three reputable bootleggers and a self-addressed envelope for a return insult.

BUT HE WAS the only man in football and associated panics who had the inflammable nerve to step out there and defy the works, man to man, tooth to tooth and boot to boot.

Short Pegs
Westbrook Pegler

NEW YORK, MAY 8.—Some great and subtle change has come over the rival arts of hitting and pitching these last two seasons, though what it is and just exactly how come, you may ask fully many a grizzled expert and receive no better answer than: "I don't know."

WHEN THE BUSTING Balm, of Baltimore, made 50 homers in a season, the rabbit ball was accused of feeding on hops and spring greens. But when this season opened they told us around the ball parks that they were now using the possum ball with about as much bounce as a sack of cement. The home runs would come in moderation.

VERY SOON, Ken Williams, of the Browns, got three in one game which hadn't been done since 1896, and he piled up a total of nine by the end of April, which was four homers ahead of the Babe's early season achievement in 1922. Curtis Walker, of the Phils, got two in one game. In fact, home runs have been clipping the plaster works off the gargoyles on the grandstands all around the circuit.

AND YET, something has been done for the pitching, too. Last year if you recall the start of the season, the early scores read like a dollar's worth of Austrian kronen. Fifteen runs was a more common score than three or four. Hits ranged up into the twenties for various clubs every day for weeks. But this spring, spring dope, and its probable effect upon teams, but there was too little space to devote to every detail that enters into the study of team strengths.

AS TO Cleveland's showing has been lacking in consistency, as it was last year.

THE GIANTS.
Cleveland's showing has been lacking in consistency, as it was last year.

EXHAUSTED NERVE FORCE CAUSES THOUSANDS TO MAKE FAILURES IN LIFE

—Doctor Tells What To Do

When your nerve force becomes weakened, all the vital organs of your body lose their normal strength and vigor, and as a result, all kinds of alarming symptoms may appear, such as nervous irritability, heart palpitation, indigestion, pains in the front or in the back of the head, more especially at the base of the brain, and a general weakness, run-down condition. In such cases it's worse than foolish to waste your time taking stimulating medicines or narcotic drugs. Your starving nerve cells must have more nerve force, the same as a starving person must have food. This is best accomplished by increasing the activity and power of the nerve-force making organs, the principal one of which is the blood. This can be quickly and most effectively accomplished by the free use of Nuxated Iron, which not only increases the activity of the blood making organs, but for sale by Jacobs' Pharmacy, Munson's, E. H. Cone, Chas. A. Smith and all other druggists.

it feeds true red blood food directly to the blood itself, thereby helping to create millions of new red blood cells. This wonderfully increases the power of the blood to help manufacture new nerve force, the same as enriching the soil increases its power to grow more wheat, corn or oats.

If you are suffering from nerve force exhaustion, you can quickly and easily prove to yourself the power of Nuxated Iron to help overcome your condition and make you strong and vigorous again by the following simple test: Make a written memorandum of all your symptoms before you start, then at the end of two weeks, go over your symptoms again and place a check mark after any that are left, and you can at once see what it has done for you. If you have not obtained most surprising results, all and even more than you expect, the manufacturers will promptly refund your money.

For sale by Jacobs' Pharmacy, Munson's, E. H. Cone, Chas. A. Smith and all other druggists.

What should your catalog cost you?

TEN thousand catalogs cost \$2,500. That's 25c apiece.

Each catalog cost a quarter. What was it worth?

The answer is that if the catalog sold goods it was worth many times a quarter.

If it sold nothing it was worth less than nothing, no matter what it cost.

There you have the test of printing—the true way to measure the value of printing.

Good printing, which means, among other things, printing on good paper, has been found profitable. Better paper makes for better printing; better printing makes for better selling.

The cost of better printing should be figured in terms of results.

The most expensive printing is the kind that does not pay, no matter how little it costs. The most profitable is the kind that produces orders.

Buy your printing prudently, carefully, wisely. We do not preach extravagance in printing. Simply remember that its cost to you depends ultimately upon its effectiveness as a selling message.

SOCIAL ITEMS

Mr. and Mrs. Stillwell Robinson have returned from their wedding trip and are at home to their friends at 645 Ponce de Leon avenue.

Mrs. Robert R. Wood has returned from a visit to her sister, Mrs. Albert Hancock, in Baltimore. She also spent some time in New York.

Colonel Robert Lee Avery is in South Carolina.

Willis McCarty returned Sunday from Kansas City, where he attended the national photographer's convention.

Mr. and Mrs. Phillips C. McDuffie announce the birth of a son, Wednesday, May 3.

Mrs. Royall J. Miller and Mrs. J. H. Roberts are in Newberry, S. C., with Mrs. J. E. Sumner for two weeks.

Dr. Lewis Gaines has returned to the city, after attending medical conventions in Washington and Baltimore.

Mr. and Mrs. R. M. Watkins and Miss Florence Watkins, who motored to Atlanta to spend several days, have returned to their home in Chattahoochee.

Dr. Cosby Swanson has returned to the city, after spending ten days in Washington, D. C., where he attended the meeting of the American Dermatological association.

Mr. and Mrs. Charlie Edward McGuffie, of 18 Matthews avenue, in Kirkwood, announce the birth of a son on Saturday, May 6, who has been named William Jerome.

Mrs. Harry English is convalescing from a week's illness, at her home on West Peachtree street.

Mr. and Mrs. John Raine are in Harrodsburg, where they will spend the summer.

Mrs. W. R. C. Henry has returned to her home in St. Louis, after a visit to her sister, Mrs. Robert C. Alston.

DR. ROY ELECTED HEAD OF NATIONAL PRIOLOGICAL BODY

Dr. Dunbar Roy, prominent Atlanta specialist, was elected president of the American Priological society, an organization composed of more than 200 representatives ear, eye, nose and throat specialists of the United States and Canada, at the annual meeting of the society held in Washington, D. C., three days ending last Saturday. This is the first time a southern man has been honored by having the highest office of the society conferred upon him. Dr. Roy left Washington Sunday for Atlanta City, N. C., where he will spend several days before returning to Atlanta.

DUNAWAY SLATED TO HEAD PRISON FARM, IS REPORT

Appointment of B. H. Dunaway, former ordinary of Lincoln county and widely-known farmer of that section, as superintendent of the state prison farm at Milledgeville, to succeed the late J. Pope Brown will be made by the prison commission within the next few days, it was reliably reported Monday at the capital.

Applications from a number of persons throughout the state have been filed with the commission for the position since the death of Mr. Brown several weeks ago. A delay of action in the appointment of Mr. Brown's successor has resulted, it is understood, because of the difference of opinion that has prevailed among the commissioners as to whether the positions of superintendent and warden, held previously by two different men, should be consolidated.

Rumor that Mr. Dunaway would be appointed by the commission at an early date was current Monday.

BIG SHRINE CARAVAN PASSES THROUGH CITY

In charge of Captain Bernard C. McMahon, the first Shrine transcontinental caravan passed through Atlanta Monday, en route to San Francisco. In 1919 Captain McMahon transported seventy-five army trucks and 250 men from Washington to Frisco.

Captain McMahon is being assisted on the trip by H. Cloyd Gill, former Atlanta newspaperman. Forming the remainder of the party are Mr. and Mrs. James U. McKay, of Canton, Pa. The automobiles left Washington last Monday, following a reception by President and Mrs. Harding. They reached Atlanta Sunday, and left Monday afternoon for Birmingham.

INCREASED WHARFAGE RATES ARE DISCUSSED

A hearing involving a fight against increased wharfage rates and handling charges placed by railroad carriers on all ports between Norfolk, Va., and New Orleans, La., was under way Monday before Examiner Keeler, of the interstate commerce commission. Eight railroads are represented at the hearing, which is being held in the appellate courtroom at the federal building. Several shippers and owners of private warehouses are also in attendance.

The shippers are endeavoring to lower the wharfage rates and the handling charges, which they declare are excessive. The present rates have been in effect more than a year.

FOUR EX-SERVICE MEN TO BE POSTMASTERS

Nominations of four ex-service men for postmasterhips of Georgia cities have been made by the republican state central committee, according to announcement Monday by C. C. Coyle secretary.

The most important nomination made was for the West Point office, which carries a salary of \$2,600. J. M. Potts was recommended for the place.

Other nominations were as follows: Toccoa, Robert W. Graves; Stone Mountain, Robert L. Eames; and Brooks, Hugh Henderson.

KIWANIS WILL PAY TRIBUTE TO MOTHERS

Kiwanians will pay tribute to their mothers Tuesday at the club's regular weekly luncheon. Members whose mothers are living have been requested to have them present. Asa G. Candler, Jr., will address the club. Floyd Jennings and Clarence Aldred will sing.

\$5,000 MORE NEEDED FOR SALVATION ARMY

The absolute necessity of securing a minimum of \$5,000 additional to carry on the Salvation Army's work in Atlanta was expressed Monday by Judge L. F. McClelland, chairman of the army's home service appeal.

The total amount subscribed from all sources, said Judge McClelland, to date is \$23,900—less than half the quota of \$50,000.

"Unless the army's work in Atlanta be curtailed to the extent that hundreds of needy cases will be unaided, men, women and children be left hungry, at least \$5,000 more must be subscribed to the appeal," observed the chairman. "Atlanta must respond to this appeal. If they could know the unselfishness with which the army acts merely as their agent in carrying happiness and joy into the darkest depths of our city, they would respond."

The appeal has fallen short of the quota, Judge McClelland added, because of an insufficient number of workers to see the hundreds of persons willing to aid the army. A great number of those who have aided the army in the past have mailed in their subscriptions, he said, and all others who have not been visited by workers are urged to mail them to army headquarters at 39-41 Luckie street.

A meeting of the army's advisory board will be held in the offices of Preston R. Arkwright, president, in the Gas and Electric building, Thursday afternoon at 3 o'clock. The object of the meeting is to hear the report of appeal officials on the total amount received and to apportion the budget for the coming year.

PLANNING COMMISSION HOLDS MEETING TODAY

This morning at 11 o'clock the city planning commission will meet to discuss features of zoning. Robert H. Whitten, consultant to the commission, arrived in Atlanta Monday and will remain until Wednesday. He said the people will recognize the benefits of the zoning law more and more as the plan stays in force.

Mills Reopen Doors.

Lawrence, Mass., May 8.—The Patchogue-Plymouth mills, which last week offered a compromise wage reduction of 9 1/2 per cent that was refused by its 400 striking employees, opened its doors today after a shut-down of six weeks. Police officers said that few persons went to work. Those who entered the mills were booed and jeered by pickets. The plant makes fiber rugs.

FORMER GEORGIA BOY IN KENTUCKY HEARS PROGRAMS

Just one of many cases where The Atlanta Constitution's radio service is a breath from home is that of Lieutenant Richard H. Tripp, who is stationed at Camp Knox, Ky.

He writes as follows: "I would like to inform you that I enjoy very much your programs, as I am an old Georgia boy, having been born and raised at Acworth, Ga., and say news from home is good news. I have installed a radio receiving set at West Point, Ky., and when I heard the announcement that the Georgia Railway and Power company was broadcasting for The Atlanta Constitution, it naturally sent a thrill over me."

"The announcement that the Tech Glee club quartet would sing for The Constitution was made much more interesting since I am an old Tech man."

Slight Damage Done To Doctors' Building By Fire on Monday

Short circuit in the wiring of the elevator motor caused a blaze which early Monday morning slightly damaged the elevator shaft and machinery in the Doctors' building, corner Peachtree and Pine streets. The fire was extinguished by the use of hand chemicals.

The building is owned by W. W. Orr, of the George Muse Clothing company, and work will begin at once to repair the damage, Mr. Orr stated.

DUPREE IS IMPROVING AFTER HIS OPERATION

W. L. DuPree, of the real estate firm of W. L. and John O. DuPree, is recovering from an appendicitis operation at St. Joseph's infirmary. His condition is improving, and he expects to return to his office within a few weeks.

An Impressive Display of Magnificent Rugs and Draperies In Taft Hall

The "Own-Your-Home" Exposition at the Auditorium all this week has no other display so extensive or so beautiful as this remarkable showing of

Oriental Rugs and Specially Designed Hangings

of rich and beautiful fabrics.

Nowhere else in the entire South has such a collection of superb rugs been assembled. Persian rugs, Sarouks of rare weaving and design—in fact, every province of Persia that produces fine rugs is represented in many beautiful specimens.

Chinese rugs, too, in the finest products of the Chinese weaves, so noted for the superbly rich tones of blues and golds.

In addition to these are others of a most unusual character.

Decorators wishing to carry out unusual color schemes will find much of interest in this great collection.

You are cordially invited to see this display.

Taft Hall—Auditorium—All the Week

Oriental Cream add a cup of shredded canned pineapple, a cup of apples, and harden in a mould. Serve with cream or with soft boiled egg yolk.

CALL BELLE ISLE TAXICABS

FESTIVAL AT WASHINGTON SEMINARY

The annual May day festival was given Monday afternoon at Washington seminary, Atlantans' fashionable girls' school, on Peachtree road, when Miss Callie Orme, one of the loveliest members of the senior class, was crowned queen. Others attractively featured in the group include, from left to right, in the group: Misses Hermina Weill, Ethelind North, Marian Mansfield and Elizabeth Cook. The girls in the oval picture, in the attractive bird costumes, are Misses Elizabeth Smith and Berta Lee Smith. Miss Adelaide Scarborough is the solo dancer with the scarf. The queen, Miss Orme, is shown in her royal robes. The frogs around the stump are: Misses Mary Wyatt Scott, Emily Matthews, Mary Meador Goldsmith, Josephine Crawford, and the nymph at the right is Miss Willie Mae Bumstead.

lookers about the state of her heart. "I think—," she stammered, "I think it would be—great fun."

"Sylvia—Ted—you can't mean—," began Diana in alarm.

"Fine stuff," approved Leigh delightedly. "Go to it, old man. Di and I'll see you through, won't we, sweetheart?"

Ted went over to Sylvia and laid a hand on each shoulder.

"How about it, Sylvia?" he asked quietly. "Is it a go? God knows I'll try never to let you regret it."

She nodded dumbly. For once she seemed to be experiencing a real emotion and her usual flippancy deserted her.

Ted drew a long breath. It seemed to Diana as though he were accepting a burden with a sigh of resignation, but he said briskly enough:

"Come along, you people! Hop in the car and we'll double your order and take the same."

Another Fine Installment of This Story Tomorrow.

Things for Boys to Make.

No. 92—Attaching Rope to Swingings Wheel.

Materials needed: Old buggy wheel and tough rope.

Yesterday you were shown the swinging wheel as a muscle maker.

Here we have five different ways of attaching rope to the wheel.

Fig. 1, ropes slip-knotted to spokes near hub and connected at upper end to main ropes. Fig. 2, ropes attached to rim and spokes loop fashion.

Fig. 3, long bolt passed through block of wood and through hub opening, and bent to receive main ropes.

Fig. 4, ropes simply looped around spokes. Fig. 5, main ropes passed through hub and hitched over spokes.

This is done by taking a single end of the rope through the hub, around a spoke and back up through the hub. Repeat the operation for each spoke to be looped. This takes a long rope, but offers more strands for twisting.

LE ROY CRIGLER.

WHAT'S WHAT

By Helen Decle

Personal remarks are always in bad taste, especially when the speaker is deliberately or thoughtlessly critical. Young girls, for example, may be aware of the defects of other people, but if they are well-bred girls they restrain the youthful impulse to express opinions which might humiliate or wound sensitive feelings.

When a girl says to a man, "You are getting bald," or makes similar ob-

servations about graying hair, irregular features, overweight, underweight, etc., she is demonstrating not "girlish candor," but lack of social training. It is hard to convince the undisciplined that personal criticism is the rudest and most ignorant form of conversation.

A gentleman who is what the double word implies—a gentle woman, who, instead of making every one uneasy, as a vulgar-mannered woman does, always feels it a duty to put people "at ease" by bringing out the best quality in everybody.

BEAUTY CHATS

ANSWERED LETTERS.

Olive S.—Cutting your hair had nothing to do with stopping its growth. There must be a sluggish condition of the scalp. Massage the head every day to increase the circulation and several times each week include a tonic with the massage.

Micky—As your figure is as good without a corset, there is no reason why you should wear one. You cannot be considered untidy in this respect unless you do not hold yourself correctly. Unless women are very stout, very few of them wear a stiffly boned stay any more and a large number of women have discarded corsets altogether, but they stand properly and avoid slouching when seated.

Hope F.—As you are young the lines around your mouth may only be due to a run-down state, which has made the muscles lose some of their firmness temporarily. Take a tonic to build up your general health and massage the lines with a nourishing cream. An astringent treatment for face and throat about once a week will keep the skin firm and help rid you of these disfiguring lines.

Miss Heavy—To reduce any part of the body, when a general reduction is not desired, there must be special exercising or massaging of the muscles to be reduced. In either case it is done through the quickened circulation which carries off the excess fat.

Miss Peggy—You have probably injured the joint from wearing shoes that were too short. Consult a chiropodist and have it treated since it may lead to a bunion unless immediately cared for.

O. S.—Joints that have been enlarged by the bad habit of cracking them will take a long time before nature restores them to their normal size. But they will improve if you are determined to break the habit. In older people, after the bones have set, a joint enlargement would not be as likely to improve as in your case.

Constant Reader—There is an operation for protruding ears, but if you can dress your hair becomingly, and still cover some of the ear so this defect is not noticed, it would be preferable. The violet ray is not suited to all scalps, but when it is the effect is excellent. It depends upon the way your scalp reacts to this treatment, whether or not you

should continue with it; if your hair improves in color and new hair is coming, go on with it for a time, but never overdo it.

Discouraged—Usually a mud pack is so drying to the skin that it takes days to overcome its effect. It does cleanse the pores and it's a powerful astringent, so with some people it is just what is needed. If you take one of the treatments you should be able to decide whether or not they are suited to you. Your method of using warm and then very cold water for bathing is good and so is the daily use of the cream. If you add to this a mild astringent once each week it will keep your skin firm and prevent those fine lines from forming.

Tomorrow—Home-Made Perfumes.

All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

Prices realized on Swift & Company sales of carcass beef in Atlanta, Ga., for week ending Saturday, May 6, 1922, on shipments sold out, ranged from 14 cents to 17 cents per pound and averaged 15.23 cents per pound.—(adv.)

FELT WORN OUT IN EVERY WAY

Tennessee Lady Says She Was Greatly Relieved by Taking Cardui and Recommended It to Daughter.

Fountain City, Tenn.—Mrs. Jett Weaver, wife of a substantial, well-to-do farmer on Route 2, this place, says she has known of Cardui for many years. She gave the following statement of her experience with this well-known, purely vegetable tonic for women:

"I was in a run-down, weakened condition. I was thin, with poor appetite, and in every way worn out; could hardly go; would be miserable, and dizzy."

"Many mornings I sat down in a chair to make my bed."

"I would get discouraged, and wonder what my troubles were, and where they would end."

"I had known of Cardui for years, and I began using it as a last resort. I took one bottle and felt some better. Continued using until I had used three or four bottles."

"The result was marvelous. I felt altogether different—in fact, felt so much relieved that when my daughter wrote she wasn't well, I wrote her to go to the store and get some Cardui."

"She did, and it certainly benefited her."

"Since then, I have tried to scatter the good news that would help others. My present health is very good."

If you suffer from many women do, and need a tonic, try Cardui. Thousands of women who have suffered have written that Cardui helped them. Take Cardui. Your druggist sells it.—(adv.)

The Housewife's Idea Box

Tea Water Keeps Flowers Fresh Longer.

If there is any tea left from lunch or dinner, do not throw it away. Dilute it and with it water your flowers, either cut or potted. They will remain fresh longer than when watered with plain water. The tea seems to act as a stimulant to plant life.

THE HOUSEWIFE.

Don't Scratch Teeth

Beautify them in this scientific way

Don't try to whiten teeth by use of harsh abrasives. The enamel, if you harm it, won't come back. Polishing agents should be mild, as in Pepsodent.

Combat the dingy film. Do it as millions now are doing—in this scientific way. Then the prettier teeth you see everywhere now will come to you and yours.

The cloudy film

Your teeth are coated with a viscous film. It clings to teeth, gets between the teeth and stays. When not combated, it forms coats which are the basis of tartar. Film absorbs stains, making the teeth look dingy. Those cloudy teeth rob millions of much beauty.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germes breed in it, and they, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film.

Ways to end it

Film has been the great tooth problem. Old methods did not end it. So well-brushed teeth discolored and decayed. Tooth troubles have been constantly increasing. Now dental science, after long research, has found two ways to fight film. Able authorities have proved their efficiency. Careful people the world over now see and feel the results.

A new-type tooth paste has been created, made to meet modern requirements. The name is Pepsodent. These two film combatants are embodied in it for daily application.

Five new effects

Pepsodent brings five effects which science now demands. One is to multiply the starch diges-

The Involuntary Vamp

Mildred Barbour

Who's Who in the Story.

Diana Langley, who possessed to a super degree a quality of "fame" which was wished for her at her birth by her youthful aunt.

Marjorie Langley, herself a notable beauty, to whom Stephen Dale, a wealthy bachelor, had been devoted for years. On her twentieth birthday, Diana impulsively declared her love for Dale, and flung herself into his arms. Later she overheard

Sylvia Bumstead, a friend who had witnessed the episode, telling

Ted Saunders, beloved by Sylvia but crazy over Diana. Mortified, Diana hastily accepted

Alex Leigh, a young navy officer, a guest at the same party.

The following morning Diana invited Sylvia and Ted to motor to New York with her and Alex as witnesses to their marriage.

CHAPTER VIII. A Double Romance.

New York in summer!

As the car Ted Saunders drove wound its way through the traffic at the Manhattan end of the Fifty-sixth street bridge, Diana closed her eyes a moment against the shimmering heat waves that rose from the house-

tops baking under a merciless sun. The stifling dust-laden stench of the city greeted her nostrils and the crash of "L" and surface car snore ears accustomed to the hum of insects or the murmur of the sea or the other peaceful sounds which nature provides where fortune's favorites are a-swimming.

"I haven't been in town in summer for years," she said to Sylvia Bennett who lounged in the opposite corner of the tonneau.

"You're a queer creature, Di! Who'd ever think of coming to town in summer to get married? I'd fancy you'd want a big Fifth avenue wedding with eight bridesmaids and white galls. I shall."

"Fiddlesticks, Sylvia, if the right man came along you'd marry him if you were in a mining camp!"

Sylvia looked at her through nar-

rowed lids and then involuntarily her eyes turned to Ted Saunders, lounging over the steering wheel, but she said nothing.

"Where to now?" enquired Ted, turning around.

"A minister's, I suppose," replied Leigh. "Where the devil does one go to get married?"

"It's plain to see this is your first offense, old man. The license comes first."

"No, the ring," corrected Sylvia. "Two rings; Di hasn't an engagement ring yet."

"It's a complex process, isn't it?" laughed Diana.

She was astonished at her own coolness. She had resolutely put from her mind all recollection of Stephen Dale in that low gray car with the wind sweeping through his splendid hair and deliberately shut the door of her consciousness against that insistent little voice that whispered:

"What can you be thinking of, Diana? Are you mad?"

It seemed to her that she was another person, or a soul, quite outside her own body, who was watching herself speak and act with the indifference with which one watches a theatrical performance. She could find in her own mind no personal concern for the vital step which the shell of Diana Langley was about to take.

It was in this state of inertia that she went through with the business of getting married. Never afterward was she able to recall one single detail.

Curiously enough it was not her own, but another wedding, which stood out prominently in her subsequent recollections of that day.

The ceremony over and congratulations duly proffered and accepted, Ted sat jovially, slapping the new bridegroom on the back:

"Well, old man, what do you think of marriage?"

Alex Leigh's beaming countenance was sufficient answer, but he said happily:

"It's great! Better try it yourself!"

He included Sylvia in his glance

AT WOMAN'S WINDOW

BY W. L. GEORGE

One of the remarkable things about elderly women is how much they can be disliked and how much adored. To the young we are often indifferent; the elderly we tend to worship or detest. We tend to worship when they achieve the triumph of growing old gracefully. Not too many women succeed in this; it is hard to see one's locks vanish, to watch attention go to others; one easily grows hard; one learns to dislike and to vex the young. Unless one learns new arts.

The woman who is aging must recognize and accept the loss of youth. She must accept white hair, which has its charm when it is well done; she must learn to be placid and dignified; in this she will find weapons that cannot defeat youth, but which can procure her a place in people's regard. But that is only surface; it is the mind that counts. The elderly woman, if she wants to be loved, must understand that youth passionately desires a confidant. She can be that confidant if she learns to listen; she can be the darling of the young because she always listens and always comprehends. To comprehend! All is in that. The woman who grows old gracefully remembers the ardor of youth; she does not tell the girl that her desire is unwise; she tries to help her to it if she can, to protect her against it if she must. But all the time the older woman remembers: "I, too, once knew folly. I, too, thought trifles important." She is young again in thought; she is the tender accomplice of wild youth; she is the friend, learned but not too wise, to whom youth will give love if age will let it.

Dr. and Mrs. Albright Honor Guests at Dinner.

An informal dinner party was given on Monday evening, by Dr. and Mrs. J. C. Gentry, at their home on Piedmont avenue, in honor of Dr. and Mrs. George Albright, who are spending their honeymoon in the home of Dr. Albright's mother, Mrs. C. M. Thornton.

Dr. Albright is a prominent dentist of Spencer, N. C., and his bride was Miss Fleeta Virginia Ford, who was a very popular and attractive member of the younger social set of the same place.

The table was handsomely decorated with lace and a centerpiece of sweet peas and asparagus fern.

The guests invited were Dr. and Mrs. Albright, Mr. and Mrs. S. Percy Gentry, Mr. and Mrs. George M. Gentry, Miss Annie Brower and William A. Albright.

West End Study Class to Meet.

The West End Study class will meet with Mrs. Willis Everett, 619 Piedmont avenue, Wednesday morning, May 10, at 10:45 o'clock.

Mrs. Palmer to Honor Mrs. Cole.

Mrs. Charles Palmer will entertain at a bridge-luncheon at her home on Peachtree in honor of Mrs. James Cole, of Pittsburg, the guest of Mrs. George Woodruff.

Seniors Give Play at Mather College.

"Midsummer Night's Dream" was presented at Elizabeth Mather college on East Fourteenth street Monday morning at 8 o'clock.

Sixteen members of the senior class, under the direction of Miss Dorothy Kellam, director of the public speaking department of the school, took part in the play.

Judge Munro Again Outlines Duties of Jury

Columbus, Ga., May 8.—(Special.) This was a general expectation locally that Judge George Munro, in addressing the new grand jury at the opening of the May term of Muscogee superior court today, would discuss the relation of judges and grand juries, as a sequel to his recently widely discussed action in refusing to accept the presentments of the last Muscogee grand jury, and that expectation was not disappointed. Judge Munro talked on the subject an hour and a half, delivering a charge that evidently had been studiously prepared.

The judge stood "flat footed" on his position, as originally set forth, his "text" being the pointed question he asked the grand jury: "Is the public sentiment plan the plan you want your courts to act upon, gentlemen?"

Resents Interference.

He told the grand jurors: "I have no right to interfere with you in the discharge of your duty, and you have no authority to interfere with me in the exercise of my discretion."

The previous grand jury had attempted to recommend that changing sentences be imposed on blind tigers and bootleggers, and Judge Munro considered this suggestion an invasion of the discretion of the court.

He referred to the "newspaper tirade" regarding his refusal to accept the presentments of the last grand jury, and said that the highest court in the land had decided that a judge had a right to take such a step.

Referring to the popular clamor in such matters, Judge Munro pointed to the "trial of the Son of God before Pontius Pilate as an instance of the trial judge hearing and heeding the cry of vox populi and public sentiment."

During the past year certain organizations have petitioned Judge Munro to impose changing sentences in blind tiger cases. He said today that it is his policy not to receive petitions from civic or other organizations suggesting "how the courts should be run." He said that as a matter of fact the records of the court showed that during the last term 90 men were sent to the chain gang, and that this "broke previous records."

HURST CONVICTED OF MURDER; LIFE SENTENCE

Quitman, Ga., May 8.—(Special.) E. R. Hurst was convicted here today for the murder of Monroe Pollock and given a life term in prison.

Hurst went to the home of Pollock on the night of March 29, and called Pollock from his house, and after a conversation in which there was nothing to indicate there was feeling between them, Hurst shot Pollock in the thigh. It was alleged Pollock's leg was amputated and he died the following morning. Hurst was drinking at the time it was testified.

Hurst, who is 74 years old, was a gunsmith in Boston, Ga.

TANLAC HEARING RESUMED MONDAY

Following a recess of a week, arguments in the litigation over the ownership of stock in the International Proprietaries, Inc., were resumed in Fulton superior court Monday morning before Judge W. D. Ellis. The case will not be concluded until the latter part of the week, and it will take several days for the arguments.

Both sides introduced a number of affidavits. P. C. McDuffie and S. C. Satterthwait, plaintiffs in the controversy, against S. A. Lynch, introduced affidavits from McDuffie, Berry H. Collins, former head of the Sales Security company; L. T. Cooper, C. E. Holcomb, and M. C. Talley, while Lynch introduced affidavits to show his integrity and financial responsibility.

Collins declared in his affidavit that he negotiated the sale of the stock

of Mr. and Mrs. G. F. Willis in the concern to Lynch, and that the latter refused to make the deal unless both McDuffie and Satterthwait remained with the corporation as stockholders. The affidavit further set out that Collins was present when Lynch stated to McDuffie and Satterthwait, that he, Lynch, was going to finance Satterthwait in buying 35,000 shares of the stock in the corporation. According to the affidavit, Lynch also stated that he was entering into an agreement with McDuffie and Satterthwait to operate the corporation on a 50-50 basis.

McDuffie's affidavit denied the statements made in Lynch's formal answer to the original suit. It set out that Lynch was familiar with the collateral which he, McDuffie had put up to secure his stock from the International Proprietaries, Inc., and that Lynch had not objected until the suit came up. McDuffie alleges that Lynch also made loans from the corporation and took down certain collateral in the same way McDuffie took down a \$5,000 mortgage complained of in the Lynch answer.

A denial that Satterthwait, on a certain trip to Florida to see Lynch on business, was intoxicated to the

extent that he could not transact the business, as charged by Lynch, was made in the McDuffie affidavit. He also declared that he bought the Cooper Medicine company, actual manufacturers of Tanlac, for the International Proprietaries, Inc., and that Lynch bought certain notes given as part payment.

This statement in reference to the Cooper Medicine company was made in denial of the statement by Lynch that McDuffie and Satterthwait attempted to purchase the Cooper company secretly and thus leave "Lynch with the bag to hold."

RULERS OF BRITAIN LEAVE FOR BELGIUM

London, May 8.—(By the Associated Press.)—King George and Queen Mary, with a suite including Field Marshal Earl Hild and Lord Barty, left today for Belgium to be the guests of King Albert and Queen Elizabeth.

Troops lined the breakwater at the eastern pier in Dover as the royal party embarked on the yacht Alexandra, which was escorted across the channel by nine destroyers.

CONCERT WILL BE GIVEN TO PATRONS OF LUDDEN & BATES

Patrons of the Ludden & Bates Piano Co. will be treated to a concert at 4 o'clock Wednesday afternoon by the Garber-Davis orchestra at the store on North Pryor street, it was announced Monday.

Jan Garber, conductor of the orchestra, which is an Atlanta organization, stated that the program would include two selections made by the orchestra recently for the Columbia gramophone. These selections are "O Sole Mio" and "If You Knew." Two other records, "Teasin'" and "In My Heart, in My Mind" which were reproduced for the Columbia will also be rendered.

The concert will be under the auspices of the Ludden & Bates Piano Co., and will be free to the public.

URGES EARLY HEARING ON APPEAL BY MOORE

Attorney General George N. Na-

pier, who leaves Sunday for Washington, where he goes in the interest of a number of important matters pertaining to his office, will file a brief with the United States supreme court, requesting that the appeal of Bill Moore, Glynn county man, for a new trial be set for hearing within the immediate future.

Moore was convicted in the Glynn superior court of a statutory offense and sentenced to ten years in the penitentiary. He appealed his case to the state supreme court which affirmed the decision of the lower courts and the case was then carried to the highest tribunal of the nation.

Moore has been in the Glynn county jail in Brunswick since April 1, 1920, awaiting final disposition of his case. The object of Attorney Napier's request that the case be set for hearing is to relieve the county authorities at Brunswick of the costs of maintaining Moore in the jail at that place. Moore asks for a new trial on the grounds that the superior courtroom in which he was tried was cleared of spectators while the trial was in progress and that he was denied a public trial. The case created intense interest in south Georgia on account of the prominence of the parties involved.

PROF. DERRY LEAVES ON TRIP TO FLORIDA

Hoping to regain his health, Professor J. T. Derry, prominent Atlanta educator and oldest living Emory university alumnus, was away for Jacksonville, Fla., on Wednesday, in company with Mrs. Derry. Professor Derry was stricken with paralysis last week. He is 80 years of age.

In Florida Professor and Mrs. Derry will stay with Mrs. Thad C. Parker. He has two sons, George Derry, of Philadelphia, and Dr. Henry Derry, of Macon.

On Memorial day Professor Derry delivered the confederate oration at Emory university. For seventeen years he was professor of history and languages at Wesleyan college in Macon.

At one time he taught in Augusta, and one of his pupils was Woodrow Wilson, then a 14-year-old boy.

Professor Derry is connected with the state department of commerce and labor at the capitol.

The Constitution Patterns

3532

A NEW PLAY SUIT FOR A SMALL CHILD

Pattern 3532 was used for this model. It is cut in four sizes—2, 4, 6 and 8 years. A 4-year size will require 2 1/4 yards of 36-inch material.

Crash, drill, gingham, pongee, poplin, repp, chambray, lawn, percale, flannelette, serge and crepe may be used for this design. If desired, the pattern of this illustration mailed to any address on receipt of 10c in silver or stamps.

In ordering patterns write name and address plainly on a sheet of paper. Order by number and inclose price in silver or stamps. Do not mail letters to The Constitution building in Atlanta, but address it as follows: Fashion Department, The Atlanta Constitution, 1188-90 Fulton street, Brooklyn, N. Y.

DRY CHIEF PLANS LOUISVILLE VISIT

Washington, May 8.—Prohibition Commissioner Haynes will visit Louisville, Ky., Thursday to investigate prohibition conditions in Kentucky and Tennessee, it was announced today at prohibition headquarters. He will confer in Louisville with Federal Prohibition Director Collins of Kentucky; Federal Prohibition Director Smith of Tennessee; and Division Chief Miller, of the Kentucky-Tennessee area.

Why She Went to Bed Broken-Hearted

HER evening was ruined. She felt that she could never face her friends again—never. She had overheard only a few words—but they were enough. It was about—her breath.

She was stunned. For she never even suspected that she was guilty of such a mistake. But it is a fact that not one in ten afflicted with unpleasant breath are aware of it. And it is a subject so delicate that not even our dearest friends would mention it to us.

Ordinary mouth washes are of little value in treating this disagreeable condition. To be sure, they may help to use a preparation such as Steroline, which overcomes most cases of bad breath instantly. Steroline is a highly concentrated liquid, most pleasing to the taste. Used morning and evening will keep the mouth cool, sweet and free from any trace of mouth odor. Be on the safe side—get Steroline from your druggist today, 50c a bottle.

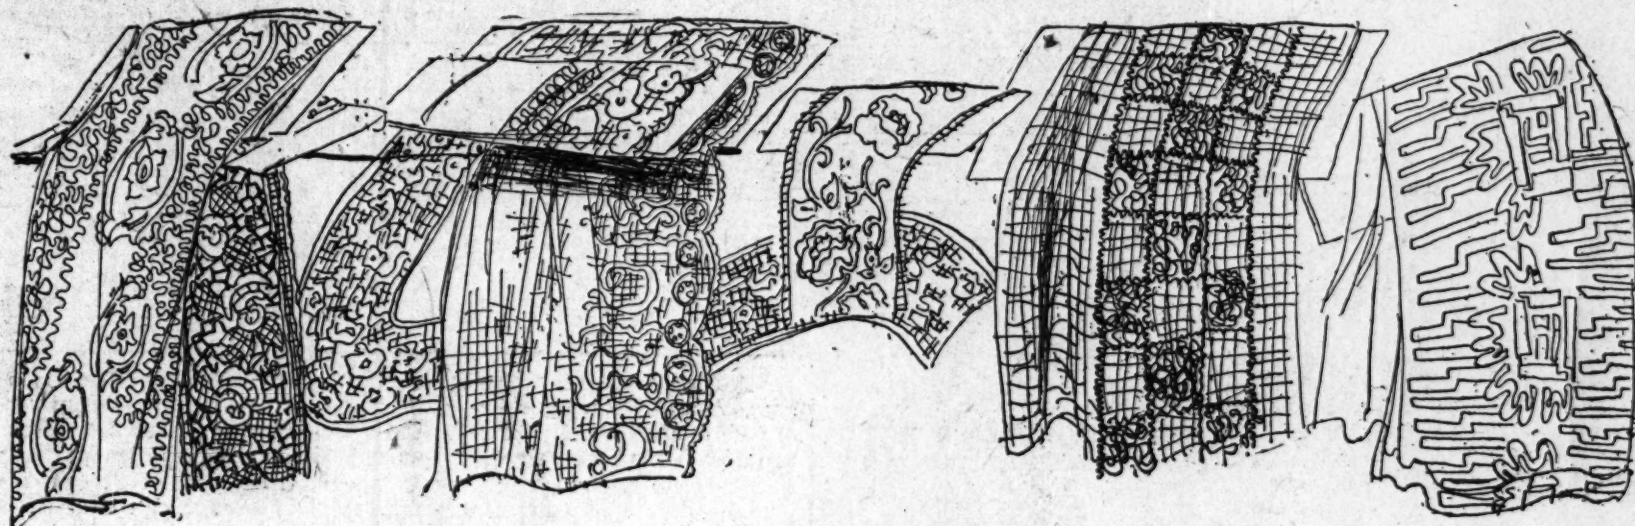

ERUPTIONS ALL OVER BABY

Was Fretful All The Time. Cuticura Healed.

"When my baby was three months old her skin became red and sore, and large sore eruptions. To blame broke out all over her. Her clothing aggravated the breaking out on her body and she was fretful all the time. The irritation caused her to scratch, and she could not sleep."

"I tried everything I heard of but nothing helped her. I began using Cuticura Soap and Ointment and in three weeks she was healed, after using one cake of Soap and one box of Ointment." (Signed) Mrs. C. E. Fry, Rt. 1, Mineral Springs, Ark.

Cuticura Soap, Ointment and Talcum are ideal for every-day toilet uses. Sample Free by Mail. Address: The Cuticura Soap Co., Dept. 500, P. O. Box 11, Malden, Mass. Send 10c for booklet. Cuticura Soap always without soap.

55th Anniversary Sale

Importer's Surplus at Half Price
Laces, Embroideries, Trimmings

—It remained for the Anniversary Sale of laces and dress trimmings to take your breath away! After you have read the amazing offerings listed below and recovered your normal respiration, regained your equanimity, we should like for you to come to the store and see what marvelous things are here for you.

—Things for summer dresses, beautiful and lovely things. Rare and exquisite real laces at prices lower than they have ever been sold for before, so far as we know.

—Girls with hope chests may indulge here, and thrifty dressmakers will lay in supplies.

\$3.00 to \$5.50 Embroidered Net \$1.69
Filet and Carrickmacross Flouncings

—With the commencement season so close at hand these lovely laces should literally fly off their bolts today. They're pure white, 36 inches deep, done on net foundations of the finest softest qualities. Not only are they an inspiration for commencement and graduation frocks, but you'll want them for billowy little affairs for dances, dinners and other social functions of the summer season.

\$6.50 to \$9.00 Novelty Flouncings \$2.95
360 Yards, 36 Inches Wide

—Wonderful laces that go in for afternoon teas, club affairs and dinners. Octagon, square or cobweb meshes in colors of black embroidered on white, brown on tan, black on royal, black on mohawk, and all black. With two or three widths over a foundation of tulle or silk you've a "creation" that Lady Duff Gordon might envy.

Novelty Bands 55c
Regularly \$2.00

—Braided effects 6 to 9 inches wide, in black, brown, orchid, periwinkle and rose.

Banded Galloons 55c
Regularly to \$2.00

—These are all white, in widths of 6 to 10 inches, suitable for trimming ratines, organdies and georgettes.

Flouncings 95c
Regularly \$3.75

—Of Swiss organdy, 27 inches wide in white and cream, suitable for commencement or confirmation frocks.

All-over Laces 95c
Regularly \$2.50

—Cire Spanish laces 40 inches wide, in black, brown and cream. Exquisite qualities.

Flouncings \$1.69
Regularly \$4 to \$7.50

—Including Margot, Filet, Lierre and Wool laces in Chantilly designs, 27 to 36 inches wide. White, black, hay, cream, jade, and royal.

Flouncings 55c
Regularly \$1.00

—Fine nainsook embroidered edge 9 inches wide attached to 1-inch insertion. Very dainty for petticoats or children's wear.

Fine Flouncings 95c
Regularly \$2.25

—These are 18 to 27 inches wide, in colors of black, brown, tan, navy, henna, rose, peach and white.

Chantilly \$1.29
Regularly \$3.50

—36 inches wide in black, navy, royal, brown, peach, henna, hay, cream and white. Lovely for midsummer frocks.

Georgette \$1.55
Regularly \$2.50 to \$4

—18 inches wide in combination colors; black with blue, jade or henna, gray with blue or red, navy with henna or tan, copen with red or tan.

Beaded and Spangled Tunics \$19.95
Regularly to \$75.00

—Over a slip of tulle or silk you have an enchanting gown that will grace the most elaborate affair. In glistening bugles and sequins closely beaded, in all black or black in combination with sphinx, blue and other colors. The values are really extraordinary. We bought them for the opera season, and many of the most noticeable gowns seen at the opera were evolved of these same lovely tunics.

Ecru Russian Filet Tunics \$3.95
Regularly \$8.50

—Fashion has a penchant for the Russian influence, and these pretty tunics do wonders to a ratine or gingham slip, transforming them into the most charming frocks for any and all occasions. They're entirely new in heavy, effective patterns on filet net foundations. They came to us at a very low price, through the courtesy of one of our largest Eastern lace houses who desired to give us something "very special" for our Anniversary Sale.

The Constitution's Novel-a-Week

The Heart of Canyon Pass
BY THOMAS K. HOLMES

Next Week, "The Spoilers of the Valley"
By Robert Watson.

(Continued From Yesterday.)

While preparations were going forward for the first meeting with satisfactory speed, Hunt heard on every hand of the gathering forces of opposition. Nell Blossom had resurrected the old song, "This Is No Place for a Minister's Son," and in a ridiculous clerical make-up sang it each night in Colorado Brown's place. Passing along the street to his hotel Hunt heard the chorus roared by the men who applauded the cabaret singer. He was met with more jeering laughter wherever he went than before; and he realized that ridicule would do the good cause more harm than any other form of opposition.

The minister's personal interest in Nell Blossom had become something that controlled him. He could not control it. It was not sight, he told himself, to do any poaching on what he considered Joe's preserves. Whether or not Nell cared for the mine owner, Hunt believed he would be disloyal to his friend if he showed anything but the interest of a minister and religious adviser in the young woman. Hunt was honest enough to admit that such feeling was not what inspired him in the matter. Nell Blossom was not at all the kind of girl he would have deliberately chosen as the object of a serious affection. But who of us may choose when love enters the lists? In a week he had become imbued with such an interest in Nell that she was the subject most in his thoughts at all hours. He could not eradicate her from his mind, though he tried hard to do so. He was old enough and wise enough to know that whatever came to him in the future, as long as he retained his faculties, Nell Blossom would occupy a niche in his secret heart that no other interest could fill.

At least an audience was not lacking to hear Hunt preach his first sermon at Canyon Pass. The seats were comfortably filled. Most of the congregation were cleanly and neatly dressed; the women in such finery as they owned. But some of the men, the rougher sort and evidently present out of curiosity only, looked just as they did on week days. Smoking, however, was taboo. Rubell Fickett and her own place, a small upright instrument of a rather uncertain tone, were great assistance. Without her help the strangely awkward congregation could scarcely have raised a hymn. Tolley was furious when he learned what his old dance hall was being used for, but he was helpless.

Hunt made no comment upon the inauguration of the new regime in the town. He conducted the service just as he might have conducted a mission meeting at Disson Corners. And he preached as carefully thought out a discourse as was his wont, although his theme was simple. He held their respectful attention and, he believed, won their undivided interest.

Tolley raved against both Hunt and Nell Blossom, and his satellites listened and agreed with him. There began to be whispered about Canyon Pass a story to the effect that the absent Dick Beckworth would never be seen by mortal eye again, that he had left town in Nell Blossom's company, and that the cabaret singer, if anybody, could explain how Dick's horse had come to be found under a heap of fallen gravel at the edge of Run-away river.

Joe Hurley did not chafe to hear these whispers for some time. In truth, during the weeks immediately following that first service in Tolley's old shack, the owner of the Great Hope had found his time fully occupied by two interests. The mine itself was one, for he believed he was close upon the unwinning of that rich vein which he had always believed was the "mother lode" of his claim. The second interest was in Betty Hunt. Hurley sought the society of the eastern girl whenever he could do so. Hunt, who was busy himself in several ways—especially in getting personally acquainted with the people in their homes or where they worked—was glad Joe could devote himself to Betty. These weeks of association bred in both young people a confidence and admiration for each other which under ordinary conditions might have foretold the growth of a much warmer regard. Hurley began to hope.

They were riding, one day, when Joe decided to speak the words that were boiling under the surface of his calm. He was a forthright fellow, was Joe Hurley, and he was very, very much in love with Betty Hunt. "Betty, I want to tell you something," he said. "These weeks you have been here at Canyon Pass have been the greatest in my life. Big things are done out here—great accomplishments achieved—fortune won. And I have always meant to do my part in it. But something else has got hold of me. Betty, I was living a pretty wild life before you and Willie came out here. I wrote him I was a kind of glorified being a roughneck, I reckon," he added with a wry smile. "But all that's changed with me now, Betty—since you came."

"Mr. Hurley—Joe!" gasped the girl. But he raised his hand gently in protest. The gesture asked her to wait—to hear him through. "I've got another object in life—another reason for working and striving. I want to accomplish what I'm aiming at for something higher than just the satisfaction of seeing the Great Hope pay big and know that folks say Joe Hurley has made a ten-strike."

"You—you will be successful, Joe," she murmured. "That's up to you, I reckon," the man said abruptly. "I'm aiming to accomplish all this—winning a fortune, helping to put Canyon Pass on the map, and all—for you, Betty. Just for you."

"Mr. Hurley! Joe! Don't!" the girl suddenly exclaimed. Her face had grown rosy when she began to understand fully what he was coming to, and then it paled. As she listened to his final outburst the crimson expression that contrasted her lips and stained her eyes shocked him. "Don't say anything more—please!" she begged. "It's all

wrong. I never thought this would happen. Why, I thought we were just friends. "Betty!" ejaculated the man in a tone that wrung the girl's heart. "Betty, haven't I got a chance with you? I know I'm not worthy." "Oh, Oh! Don't put it that way, Joe," she pleaded. "It really isn't that!"

"What's the matter with me then?" he demanded. "Do you want time to think it over? Or—wait! Betty, is it because you left some one back east?"

The girl was silent. She turned her head so that he might not see her face. But Hurley waited. She had to answer—and the halting word was uttered as though it were wrenched from her. "Yes."

Hurley drew in his breath sharply, and then he was likewise silent. A minute dragged by. She stole a glance at him at last. He was staring steadily at her left hand. She had realized that he was staring at her bare upon her pony's neck. Suddenly her face flamed again. "Oh! I do not wear his—his ring," she said hoarsely. "There—there is a reason."

"I am not prying into your private affairs, Miss Betty," Hurley said quickly. "Only—I am sorry I did not know before. Willie never said a word to me."

"He does not know!" ejaculated the girl. "I—I do not want him to know." "I won't learn it from me. Don't fear," said Hurley rather roughly. "Oh, Mr. Hurley! I am so—so sorry," whispered the girl.

The man, with drooping shoulders and hanging head, sat on his horse, a statue of disappointment. He did not move or look at her, as she wheeled her own mount.

"I—I think I would like to ride back alone," Mr. Hurley said. "You won't mind's. Afterwards, I hope we may be quite as good friends as heretofore. I do appreciate your friendship—Joe."

CHAPTER VI.
Betty's Secret.

Betty could not easily miss the way back. The trail was perfectly plain. She rode fast at first, for with all her sorrow for Joe Hurley's disappointment, she could not bear him near her now. She reached the open stretch of the trail from Hoskins. This she followed toward the wagon track which ended on the brink of the evening. She had brought her pony to a quiet pace and jogged along, deep in her unhappy thoughts. Suddenly, turning a clump of brush, she quite involuntarily drew in her pony and halted. There was a rider on the trail ahead of her, a stranger.

It was for only a moment that Betty saw him. Horse and rider were plunging down a steep declivity beside the trail into a thick copse. Had he heard her pony and was seeking to escape observation? The girl was impressed with this possibility. She rode on again, but very cautiously. Her eyes searched the brush in the little ravine. Suddenly she saw something that was not vegetation. It was the upper part of a man's face. The man's hair covered all his hair and cut off much of his forehead; a branch hid all below the point of his nose.

This patch of face shocked Betty. It seemed that she recognized it! Was it—could it be—The blood pounded in her temples; her eyes were suffused. At that moment she could not have spared her pony had the lunker in the brush sprung forth into her path! Then he moved. She gained a clear glimpse of his entire face before he dodged again out of sight. His hair rolled upon the collar of his shirt and he wore a mustache, but no beard. Betty felt sudden relief. "It is never Wilkinson—never!" she murmured. "Never him!"

She rode on finally with a sudden access of courage. When, a little later, she heard pattering hoofs behind her she was not startled. She turned to look and saw three roughly-dressed fellows pounding along the trail on tired and sweating steeds. One of the men had an authoritative air. It was he who addressed her. "I say, miss, have you seen a fellow riding this way—couldn't be long ago? Mebbe an hour?"

THE WIDOW AND HER ATTORNEY ANTICIPATED IN ADVANCE THE ATTACK OF THE DEFENSE—THEY ADMITTED THE DIARY AND ALSO THE PRESENTS—THAT SHE DID NOT LOVE HIM AT FIRST BUT GRADUALLY BECAME FOND OF HER—IT LOOKS LIKE A TOUGH JOB FOR BIMBO—

Betty recognized the measure of scorn in this remark, but she was in no position to resent it. Nell drew from the pocket of her abbreviated skirt a jackknife. With an implement in this she removed the stone in a twinkling.

"There," Nell said. "Let him rest

so little in common, after all found much, besides dressmaking, in each other to afford them interest. It was Nell's strange, sweet voice that pleased Betty most. Even when the western girl said the rudest things, her voice caressed, one's ear, and Betty began to realize that Nell's

Joe's case, no matter how far wrong the unsophisticated school girl had been to give her heart into the keeping of another who had seemed a much more charming man!

Andy, Wilkinson—sophisticated, smiling, tender, with all the graces of person and intellect that any young

woman could ever mean anything to him if she unsuspicious, broken-down old minister in a neighboring town joined them in holy bonds. Aunt Prudence would forgive her when it was all over and she went home with her diploma and her marriage certificate in her trunk. It would be abso-

lutely wicked to disturb poor Aunt Prudence by a letter either announcing the engagement, which was for a very brief term, or her marriage. For Betty's elderly relative was ill—worse than either Betty or her brother dreamed of at the time. (Continued Tomorrow.)

RADIO DEPARTMENT

PROGRAM TONIGHT BY BRENAU GIRLS

"Brenau Busters" and other parts of Glee Club to Give Numbers From WGM.

When that bunch of 50 Brenau beauties comes in this morning, it will not be only for the benefit of the people who will attend their annual show tonight at the Atlanta Woman's club auditorium, for between 6 and 7 o'clock tonight they will sing and play and perform by radio for The Atlanta Constitution. Thousands of people in a score of states will be able to enjoy their music through WGM.

The Brenau Glee club brings a show here that is said to surpass anything the girls have attempted in former years. The managers say it's going to be one of the biggest surprises that the theater-going public of Atlanta has had in some months and, from photographs of the girls in their costumes, there's no question about their being attractive. If they can sing and play half as well as they can make pretty pictures, then success is assured for them.

To Give Song Hits.

While WGM tonight will not broadcast numbers by the entire chorus of 50 girls, some of the biggest song hits and jazz orchestra numbers will be sent out to radio fans by The Constitution.

The Brenau jazz orchestra this year is something worth talking about. Six of the best syncopators who ever attended Brenau composed it. They are Nina Biele, pianist; Doris Deer and Sarah Gray, violinists; Margaret Grattan, violin-celloist; Catherine Reese, banjoist; and Ruth Owens, who handles the drums, xylophones and other traps.

Along with the Brenau Busters, which, by the way, the jazz orchestra is called, is Joe Woodard, one of the best little jazz singers that any girl college ever boasted on its glee club. She will perform for radio enthusiasts with the orchestra.

Opera Numbers Included.

But while there's a lot of jazz in this show the Brenau girls are to give tonight, there is also some mighty good opera music. One particularly outstanding feature of their show is the part song, "Four Little Girls From School," which is sung by Eleanor Greenleaf, Leticia Westfield, Sarah McInis and Rena Boltin. The number is taken from the Gilbert and Sullivan light opera, "The Mikado."

The Constitution will broadcast a number of these solo and part numbers which are expected to score heavily for the girls at the Woman's club auditorium tonight.

LISTENING IN

If you are a radio fan—and if you aren't you should be—the man Bob Davis once described as "the most distinct of his species" if you are one of the growing thousands who are companionship, knowledge and recreation out of the little black box, be prepared for an explosion. While you expect about it better get prepared for a lot of explosions. They'll be coming along with the first hot weather, says Ernest F. W. Alexander, chief engineer of the Radio Corporation of America, in an article, "The Imp in the Radio Box," in Collier's Weekly for May 13. He warns that these explosions will raise so much reaction that the radio phone owners switching in for their nightly concert will feel

Agents in Atlanta and Other Towns Are Needed

A few weeks since I was invited to dinner in New York and when I was introduced to one of the ladies as "Manager of the Mutual Life Insurance Company of New York, from Atlanta," she stated with much enthusiasm that the Mutual Life was the Greatest Company in the World, and that her husband, "Ed," shortly before he died, took out a policy with them which gave her \$166.66 a month as long as she lived—not for a certain number of months or a certain number of years, but as long as she lived. I simply replied that she happened to be more fortunate than many other women whose husbands had not been persuaded by an active LIFE INSURANCE Agent to take out a monthly income policy for them.

The above is merely an illustration of what Agents are doing every day.

I am in need of several more solicitors in the City of Atlanta who can present the MONTHLY INCOME Policy to hundreds of men who have not made absolute provision for their wives and families. Such income can be arranged for \$10.00 per month and up. See or write

FIFTEEN MINUTES OF RADIO EACH DAY

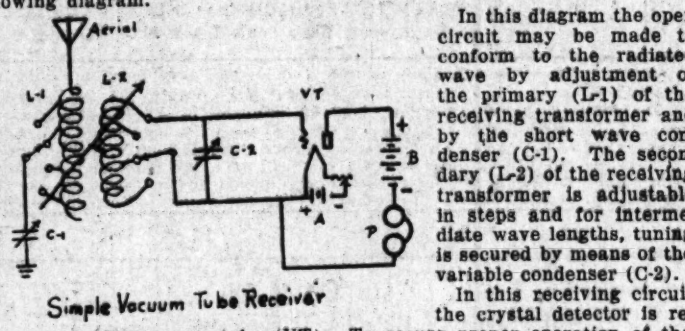

BY EDWARD M. DAVIS
Formerly Technical Electrical Expert for United States Government

Lesson No. 37. The Vacuum Tube Detector.

In contrast to the crystal type of detector the vacuum tube offers marked advantages. The crystal requires careful adjustment in order to receive signals of maximum strength and the adjustment lacks the stability which the vacuum tube affords. For receiving the highly specialized broadcasting features, transmitted on a wave length of 360 meters, the crystal type of detector offers a limited range. Local conditions have considerable bearing on results obtained from the crystal detector but it may be said in general that it affords a satisfactory means of signal reception within a radius of from five to twenty-five miles.

The vacuum tube detector, on the other hand, offers the distinct advantages of increased range, intensified signals and stability of adjustment. Just as in the case of the crystal detector, local conditions influence the range of reception but in general the substitution of a single vacuum tube as a detector in place of the crystal may result in the reception of signals within a range of from ten to one hundred miles.

A simple form of vacuum tube receiving circuit is shown in the following diagram.

Simple Vacuum Tube Receiver

placed by the vacuum tube (V.T.). To secure proper operation of the vacuum tube, two external sources of energy are necessary; namely, the "A" and "B" batteries. The "A" battery has a potential of six volts and may be obtained in capacities varying from 36 to 100 ampere hours. The "B" battery provides a potential of about 250 volts and is made up of one-half volt cells with a current flow of small amperage. The "A" battery supplies the necessary current for heating the filament, the amount of current being controlled by a small adjustable resistance connected in series. Heating of the filament causes the emission of electrons or small charges of negative electricity from the filament. Careful regulation of the amount of current flowing through the filament will prevent it from being burned out or having its normal length of life considerably reduced. The amount of current flowing through the filament tubes and at a range from 0.2 to 1.5 amperes, the proper amount being recorded on the container in which the tube is purchased.

The plate current is provided by the "B" battery, a storage or dry battery with a potential usually of 225 volts. The positive terminal of the battery is connected to the plate, as shown, the current flowing from plate to filament through the tube and thence through the receiving telephone to the negative side of the battery.

When the open and closed circuits of this type of receiver are properly tuned to the transmitter, the energy of the radio-frequency oscillations of the radiated wave is rectified by the vacuum tube into unidirectional pulsations which are rendered audible in the receiving telephone.

The valuable rectifying properties of the vacuum tube will be further explained in lessons to follow.

(Copyright, 1922, for The Constitution.)

MARTINELLI SENDS RADIOGRAM HERE

Giovanni Martinelli, tenor of the Metropolitan Opera company, evidently has faith in radio, for that's the way he sent his compliments to the real estate firm of Grant & Jeter which recently opened for business here.

Mr. Martinelli, who appeared here several weeks ago, is a close personal friend of Fred E. Jeter, vice president of the new firm, and Monday Mr. Jeter received a radio message from the S. S. Cuba, on which Mr. Martinelli is a passenger, reading, "All good luck and my best wishes to you in your new enterprise."

PROPOSES PROBE OF STEEL MERGER PLANS OF FIRMS

Washington, May 8.—Inquiry into reported plans for a merger of several large steel corporations was proposed in a resolution introduced today by Senator La Follette, republican, Wisconsin.

The resolution referred to the reported merger of the Midvale, Republic, Lackawanna and Inland Steel corporations, with the Youngstown Sheet and Tube company, the Steel Tube company of America, and the Brier Hill Steel company. It added that it was reported the Bethlehem Steel corporation would join the merger.

Action on the La Follette resolution went over.

The resolution declared that the seven-corporation merger would form a "billion-dollar corporation controlling substantially all the steel-producing capacity of the country which is now controlled by the United States Steel corporation," and added that the proposed combination would have an annual capacity of 10,000,000 tons of steel and "create a complete monopoly of the steel industry in the hands of two gigantic corporations."

The attorney-general and the federal trade commission would be called upon under the resolution to inform the senate regarding the proposed merger and what actions have been instituted to protect the public interest. The attorney-general would also be called upon to report advisability of acting under the Sherman and Clayton anti-trust laws "to prevent and restrain this impending combination."

HIGH LEVELS

Stocks Are Reactionary But New Highs Are Made In Several Steel Shares

BY R. L. BARNUM,
Constitutions New York Financial Correspondent.

New York, May 8.—Today's stock market was reactionary. However, whenever it began to look like prices were going to have a considerable break, selling ceased, to begin again at the first signs of returning strength. Some of the seasoned traders in Wall Street elected today to stand aside to see what the market was going to do before again taking a position. There is not much doubt in the minds of seasoned traders that distribution is going on, whenever the market will take stocks.

As for bonds, that market was again inclined to slow down. Prices bowed and lay low. Prices were available today showing when the trading in bonds began to get very active, where the peak was hit and when the volume of trading began to fall off. Here is the trading by weeks: Week ending May 6, \$36,376,076; week ending April 29, \$109,043,000; April 22, \$120,811,000; April 15, \$106,649,000; April 8,

\$100,282,000; April 1, \$90,959,900. This week's market for new securities started out with an offering of \$75,000,000 of farm loan 4 1-2 per cent bonds at par. The last offering of these bonds, which are exempt from all taxes, was last February, when \$60,000,000 5s were floated. In July of 1921, an issue of \$60,000,000 6 1-2s was brought out. These bonds are not an obligation of the government, but the government does own some of the stock of the twelve federal land banks which issue farm land bonds secured by government bonds or by first mortgage on farm land not exceeding 50 per cent of value or 20 per cent of improvement. Today's market reaction to the new offering of the stock market was high records for the year were made for Crucible, Vanadium, Republic, Pittsburg and West Virginia. All of the independent steel shares were strong. Wall street hearing that the proposed mergers of seven independents had progressed so far that an agreement had been reached as to the tentative price at which the stocks would be taken over and exchanged for stock of the new company which is to have no par value. No one in authority would confirm these reports, and in some quarters it is still doubted whether the proposed merger will ever be completed.

Reported figures.

Here, however, are the figures which were handed about in Wall street of the values agreed upon for the existing shares: Republic \$75, Indiana \$70 to \$75, Lackawanna \$85, Miami \$80, Grand Hill \$20, Youngstown \$75. It was widely rumored that the stock of the new company would be brought out somewhere between \$75 and \$80 or about where the stock of the United States Steel corporation was first

Illinois Central earned for its \$100,000,000 stock \$8.87 a share. That was before there was even any talk of new preferred stock.

Provisions.

Chicago, May 8.—Provisions ruled as follows: Pork, nominal. Lard, \$11.36. Hides, \$15.50@16.25.

New Issue

Wednesday's unfilled order statement of the United States Steel corporation as of May 1 is expected by Wall street to show an increase of anywhere from 500,000 to 900,000 tons. From July 1929, when the figures were 1,118,000 until last April there was a steady decline. April 1 showed 4,440,000 tons, an increase of 333,000 tons, the figures were 4,494,000 tons.

Gold Shipment. A shipment of \$1,257,000 gold from Sweden is expected by the Federal Reserve Bank of New York to arrive in New York on Tuesday. The gold is for the National Bank of Commerce, which has received several shipments from Sweden.

Northern Pacific has obtained from the interstate commerce commission authority to raise the rate on its bonds at not less than 90 to pay off the 6-1/2 per cent bonds issued a year ago when money was tight to redeem the maturing Burlington bonds. There will be \$135,000,000 of the new bonds to pay off the \$132,500,000 which are redeemable at 103-1/2.

Dated May 1, 1922. Due May 1, 1942
Not redeemable before May 1, 1942

Interest payable May 7 and November 7 each year.
Interest Reserve Bank. Principal payable at the bank in New York.
Coupon not registered. Bonds (interchangeable) in denominations of \$10,000, \$5,000, \$1,000 and \$500.
Redeemable at 100% at interest at any time after ten years from date of issue.

The big fias in front of the Bankers' Trust company and J. P. Morgan were the first at which he must have been present. He was there for H. P. Davison. Davison started the Bankers' Trust. The Morgan offices were closed and will remain closed tomorrow until after the funeral. Until he became ill Davison was beyond doubt the biggest man in Wall street, and the only one capable of leadership such as was exercised by F. H. Harriman or the elder J. P. Morgan.

Earnings Statement. Tidewater's oil earnings statement for the year ending 1922 reflects that the Federal Farm Loan Act provided that the funds shall be lawful investments of all fiduciary and trust funds under the jurisdiction of the United States Government.

For the year ending December 31, 1922, this company earned 26 per cent for its stockholders. There was a deficit after dividends of \$6,198,000 against a final surplus after dividends of \$1,000,000. The first quarter of 1922 gross was \$1,000,000.

**Price 100 and interest,

THEATERS MOVIES

Lyric Theater (Keith Vaudeville)—See advertising for program.

Loew's Grand (Vaudeville and Pictures)—See advertising for program.

Forsyth Theater—All week. Forsyth Players in "The Walked in Her Sleep."

Howard Theater—All week. Gloria Swanson and Rodolph Valentino in "Beyond the Rocks," and other screen features.

RIPROARING FARCE PLEASES AUDIENCE AT THE FORSYTH

A rip-roaring farce that brought out the complete capabilities of the Forsyth Players, with the individual actors working smoothly, spiritedly, and convincingly, made "She Walks in Her Sleep" by far the most enjoyable production of the company since the opening weeks.

They played to a capacity audience Monday night with everybody in a good humor from the time the first lines were spoken. The comedy by Mark Swan abounds in dialogue that never lags and situations that avoid the traditional paths that most farces tread, and the players showed that they had appreciated the opportunity given for individual effort.

William Boyd, in particular, was happily cast. He played with an ease and assurance that made his every appearance refreshing. Never once did he fail to get a laugh. Never once did he fail to get the most out of a situation.

Gloria, in "The Walked in Her Sleep," gives Katharine Givney an opportunity to show Atlanta her worth. Forsyth theater habitués have long had an idea that Miss Givney is an actress of real accomplishments, but her light has been hidden under a bushel of small parts. In the bill this week, she has the opportunity to give an entirely enjoyable and easy character portrayal, and she further has the opportunity of appearing to personal advantage despite some stage age hairs.

Alice Baker and A. S. Byron in all.

KEITH VAUDEVILLE (At the Lyric)

A bill with six acts, three of which are worthy the name of headline on almost any bill that B. F. Keith has presented in other words, the best program of high-class vaudeville that has been seen at the Lyric theater for some time. The first dozen months at least is offered for the opening half of the present season.

Henry's Melody Sextette, heavy of talented and pretty girls, in "A Harmonious Offering of Songs and Music," George Damerel and Myrtle Vail, assisted by Miriam Allen, in "A Musical Satire," and Jack Cahill and Don Romaine, "wop" and black-face comedians, all offer numbers of the very highest type.

In the first instance, excellent instrumental and vocal selections, cleverly divided between old favorites and modern ragtime tunes, is a pleasing feature; in the second, the character acting of pretty Miss Vail and the song and dance of "Nobody's Fool," by Miss Allen, provide excellent entertainment, and in the third, the dialect chatter and singing of the two comedians keep the audience in constant laughter.

"Edith Jane" is a new play, which opens the program with a bit of clever society dancing; Walsh and Bentley, in "The Girl Who Came to Stay," appear in one of the best strong-arm balancing stunts ever witnessed here, and the McDonald Trio, clever and agile, give a close to the entertainment.

News and feature pictures are added attractions on a thoroughly diverting ensemble.

LOEW VAUDEVILLE (At the Grand)

Headed by a well-balanced program first half of the week is "Dance-O-Mania," a series of brilliant dance numbers contributed by a company of five artists of grace and ability. Three men and two women are in the company and all are talented performers. Especially in spectacular, acrobatic and whirling dances to they call Myron Pearl being the featured artist.

For a novelty symphony act, the offering of the Lyric is hard to beat. Hand and head and head to head balancing is featured with Lillian Vail doing the understanding. When one is informed that the lady weighs but 115 pounds yet holds her partner, weighing 160, with a remarkable performance, it is apparent. A wonderful acrobatic dog, "Jackie," takes no small part in the difficult feats and catches and wins a full share of the applause.

Other acts that please are Harry Sykes, in "African Opera," a black-face offering with stories and songs. "After the Hymnbook," a clever one-act domestic comedy, presented by Hale Norton and Virginia Milton, and Beck and Stone, harmonious singing comedians.

The feature of the screen bill is "William Farnum, in 'A Stage Romance'."

"Beyond the Rocks." (At the Howard)

"An ideally attractive heroine and here!"

Thus does Elinor Glyn, famous screen writer, describe the story of "Beyond the Rocks," which is being presented at the Howard theater.

The story is a tale of love and adventure, set in the beautiful island of Tugali, in the Solomon Islands, where a few white persons and a few Chinese live. It does not contain a single street scene.

THE HOURS
11-12:30 2:15 4 5:45 7:30 9:15

British novelist, characterizes Gloria Swanson, the star, and Rodolph Valentino, leading man, in "Beyond the Rocks," a superb Paramount feature playing at the Howard.

Madam Glyn made a rush trip from Europe to Hollywood in twelve days, for the purpose of aiding and assisting Director Sam Wood in the making of the new picture, which was adapted from one of her most popular novels. It seems so good to see you all again—after the many pleasant memories of "The Great Moment," smiled Miss Swanson. It will be recalled that that picture was also based on one of Madam Glyn's stories.

"Smilin' Through." (At the Metropolitan)

Norma Talmadge in a fine dramatic vehicle of the magnetic screen attraction at the Metropolitan theater this week.

The production in which she appears in "Smilin' Through," screen version of Allen Langdon Martin's novel, played that gained new laurels for Jane Dowd on the speaking stage.

Norma is at her histrionic best in the dual role here. She is seen first as the fair Myron, who is slain on her wedding day by a jealous suitor. Then she is the young and beautiful Kathleen, who is the true love of her deceased aunt, Myron.

In this production Miss Talmadge plays the part of the girl who is acting of her career. The photoplay itself is the finest she has yet made.

"Peacock Alley." (At the Strand)

"Peacock Alley," which Monday opened at the Strand theater, is one of the most delightful pictures of the season. It is a charming Murray presentation with all that splendor which mark the blonde star's offerings on the screen. It is gorgeously costumed and excellently directed, the story running parallel to its romantic conclusion.

It pictures the romance of a famed Parisian dancer who falls in love with a small-town American and then finds that his home folk have been a dancer.

As the dancer in this colorful production, Mae Murray scored with the finest bit of characterization she has ever done. She is supported by a notable cast headed by Monte Blue as the young man and this screen favorite brings to the part all that genius for which he is noted.

"The Two Orphans." (Next Week at Criterion)

A story of the pains taken by D. W. Griffith properly to cast his masterpiece, "The Two Orphans," his picture version of the old stage play, which is being shown at the Criterion theater.

"Now that Mr. Griffith is assured of the greatness of his new play, goes the account, 'he has told us how enjoyed it some interesting facts about how it was made.' To begin with, he held at first what he calls a tournament of acting; and out of 300 actors and actresses who tried for places in the picture, those who now appear in the film are those who qualified in the struggle for survival of the fittest.

"Each actor or actress was measured against the other as a means of selection. This applied even to the Gish sisters, and was not until after the trial that Miss Lillian was chosen for the part of Henriette and Miss Dorothy for Louise, the blind girl.

"Miss Lulu Bett." (At the Lyric)

Proving as reliable on the screen as it was on the stage, "Miss Lulu Bett," William de Mille's Paramount production, scored a decided hit at the Lyric theater yesterday.

The play, by Zona Gale, dramatized from her own novel, was awarded the Pulitzer prize for being the best American play during the season of 1920-21.

The picture is one of the best with which Mr. de Mille's name has been associated this season and presents a splendid cast of players who are most artistic in their portrayals.

The story deals with American life and people in a small town. Lulu Wilson, the heroine of "What Every Woman Knows," and other de Mille productions, was excellent in her portrayal of the spinster heroine. Milton Sills plays the leading man's role and the other characters are ably interpreted by Theodore Roberts, Helen Ferguson, Mabel Van Duren, Clarence Burton and other capable players.

Said to be the finest capital in the world. Tugali, the administrative center of the Solomon Islands, contains thirty white persons and a few Chinese. It does not contain a single street.

Wilson Asks Reed Defeat to Clear Party Reputation

St. Louis, May 8.—(By the Associated Press.)—Referring to United States Senator James B. Reed as "a marplot," former President Wilson, in a letter to former Governor Lon V. Stephens, made public today, asked the defeat of Missouri's senior senator to "redeem the reputation" of the democratic party.

It was Mr. Wilson's third letter on the subject of the democratic nomination for United States senator, sought by Mr. Reed and Breckinridge Long, former third assistant secretary of state, in the Wilson administration.

The letter was in reply to one by Mr. Stephens, in which the former governor, referring to a letter the former president recently wrote the St. Louis Globe-Democrat attacking Mr. Reed. Mr. Reed made reply to the letter in which he questioned Mr. Wilson's memory.

The letter, under date of April 27 to Mr. Stephens, follows:

"My dear Governor Stephens—Your letter of April 22 has gratified me. I am glad to be sustained in my own judgment of Reed by your own closer knowledge of him, and I shall hope and confidently expect to see him repudiated by the democrats at the primaries. Certainly Missouri cannot afford to be represented by such a marplot, and it might check the enthusiasm of democrats throughout the country if their comrades in Missouri should not redeem the reputation of the party by substituting for Reed a man of the true blood of democracy, a man, I am sure your own great influence will contribute to the de-

stated and expected redemption. Please accept assurances of my entire confidence in the Missouri democrats, and believe me, with best wishes.

"Sincerely yours,
(Signed)
"WOODROW WILSON."

WATKINS PLAN LEADS IN STRAW BALLOT

Continued from first page.

efficiency where we can't find it now. The city wouldn't be run on a rip-rap hit-or-miss plan," he said.

With strong emphasis he dwelt on the public school provision in the Watkins charter, which gives the schools 30 per cent of the city's revenue.

"The school question is the most important thing before you," he stated. "We can afford to bump over the streets, but if our children grow up in ignorance nothing can turn back the time and educate them."

Scores Present Charter.

In his ten minutes' speech of rebuttal following Mr. Pomeroy and Mr. Nutting, the speaker charged that the old charter is "rotten." He also declared that Herbert E. Choate sells shoes and "knows no more about writing charters than the man in the moon."

He said Mayor Key is asking the people to elect him city manager by voting for the Choate charter. Mr. Pomeroy expressed the view that the city's present system of government is good where the function of the government is purely legislative, but "not worth a cent where the function is administrative."

"You don't want a large number of people attempting to do that service for you," he said.

The speaker asserted that the Choate charter is patterned closely after the form of the national government. "My friend Nutting will say that the United States government is not an efficient government," he continued.

"It is the most efficient government in this country. For example, if you want action you go to the attorney general at Washington. He can put his hand directly on every federal court and court officer in the land. The treasurer can place his hand in ten minutes on every officer and clerk in your Federal Reserve bank."

"They talk about representative government. A government that is not responsive to the people is not representative. No system could make the government more responsive to the people than the Choate charter."

The School Clause.

Mr. Pomeroy said the 30 per cent school clause was not in the original Watkins charter. "It was at first 26 per cent, just like it is in the old charter, and I wonder whether that additional 4 per cent was written in by Mr. Watkins because he loved the schools, or whether it was to catch votes."

Councilman Nutting asked the voters to consider the city's marvelous growth and whether its government has been reasonably good and safe for 48 years. He denied that the council is exercising administrative functions. Its council committees simply supervise the departments, under the proposed amendments, he stated.

The speaker urged as one of the strong points of the amendments the provision for a school board of twelve members, giving each ward representation. Answering Mr. Nutting's argument that the Watkins plan divides the school from council, he said the

attempting to do that service for you," he said.

The speaker asserted that the Choate charter is patterned closely after the form of the national government. "My friend Nutting will say that the United States government is not an efficient government," he continued.

"It is the most efficient government in this country. For example, if you want action you go to the attorney general at Washington. He can put his hand directly on every federal court and court officer in the land. The treasurer can place his hand in ten minutes on every officer and clerk in your Federal Reserve bank."

"They talk about representative government. A government that is not responsive to the people is not representative. No system could make the government more responsive to the people than the Choate charter."

The School Clause.

Mr. Pomeroy said the 30 per cent school clause was not in the original Watkins charter. "It was at first 26 per cent, just like it is in the old charter, and I wonder whether that additional 4 per cent was written in by Mr. Watkins because he loved the schools, or whether it was to catch votes."

Councilman Nutting asked the voters to consider the city's marvelous growth and whether its government has been reasonably good and safe for 48 years. He denied that the council is exercising administrative functions. Its council committees simply supervise the departments, under the proposed amendments, he stated.

The speaker urged as one of the strong points of the amendments the provision for a school board of twelve members, giving each ward representation. Answering Mr. Nutting's argument that the Watkins plan divides the school from council, he said the
